Services Will Spend More For Weapons In FY '60; Added Manpower Cuts Seen

(Secretary McElroy On Making A Budget, Page 11)

ARMED Forces weapons costs will rise in fiscal years '59 and '60 to record peace-time rates.

The impact of rising prices for hardware will add pressure for further cuts in

Expenditures can be expected to reach an annual rate of \$41 billion before the end of fiscal '59, notwithstanding the fact that manpower totals will be reduced.

A clear indication of the up-down trend was given to newsmen covering the sixth annual Secretaries Conference at Quantico, Va., by Secretary of Defense Neil H. McElroy. (The "Regrettable Rebuke," Page 36.)

"As you are able to deliver more and more destructive power per unit of manpower in your forces, you have two things happen," he said. "One of them is that you have an increased cost for the weapons that must be supplied per unit of

"But the other one," Secretary McElroy added, "is that you probably, and certainly hopefully, can do the job that is required of you militarily with fewer people but

with those fewer people having their power, their force multiplied by a bigger multiplier in terms of these bigger, more powerful, more effective weapons.

Work has now reached a point where

First "Opposition Witness" Testifies On Defense Reorganization; F. Eberstadt Says "Simplification Not Centralization" Is Needed

FERDINAND EBERSTADT doubts the wisdom of organizing the Defense Department "on the assumption that there will be insubordination and disobedience," within the Armed Services.

He told the Senate Armed Services Committee 25 June he believes the Secre-tary of Defense already has all of the powers which is wisely possible for Congress to grant.

Mr. Eberstadt's views were the sharpest opposition to the Reorganization Plan thus far in House and Senate hearings.

A pioneer in Unification studies—he worked on the problem in 1945—Mr. Eberstadt said that the problem in Pentagon reorganization "is not rehabilitation of a delapidated and antiquated Defense Department and Military Estab-lishment, but improvement of those which we now possess, whose deficiencies

may reside at least as much in decision as in organization.

Repeatedly called before Congress in recent years to give his views on Defense organization, he told the Senators "words are incapable of conveying to the Secretary of Defense greater authority than he presently possesses. It has never been challenged. What is in fact desired is removal of barriers to greater centraliza-tion of operations."

Mr. Eberstadt stated that if any one of the three Military Departments is weakened, "the effect on the Joint Chiefs of Staff system is direct and immediate. In a word, without Departmental integrity, there can be no Joint Chiefs of

In an apparent reference to the President's proposed "gag" rule, he said: "Whatever jeopardizes the rights of prin-

lives to their careers in the service of their country. I have a great compassion for them in the present situation. I also believe that the Congress should meet its constitutional responsibility in handling

"It is obvious that these men can testify

only under duress and that if they should happen to disagree with any of the reorganization proposals they will either be compelled to stultify themselves or, if they speak frankly, be subject to public obloquy and damage to their careers.

"In these circumstances, I doubt

whether further testimony from the military chiefs will contribute anything to a greater understanding of the issues involved by the Congress or the people of the country. For this reason and until

the committee can be assured that these officials may testify in complete candor

without being threatened overtly or co-

were scheduled for tomorrow.

defense legislation.

cipal military officers of the three Departments to present and advocate their without restriction or restraint and to be responsible for the conduct of plans and operations which they have agreed on, jeopardizes the Joint Chiefs of Staff system."

He also said that administration of the separate Military Departments "through" their respective Secretaries is equally important. "Mere provision for separate organization in the statute or on a chart can become meaningless if circumvented by procedures which ignore the position and authority of the several Depart-mental secretaries," Mr. Eberstadt de-

He said he does not favor the amend-ments which the President has recom-mended in the House bill.

What is needed in the Pentagon, he emphasized, "is greater simplification at the top; not centralization."

CHECKS ARMY-AF LIAISON. General Earle E. Partridge, USAF, NORAD Cin-C, left, talks with Col. Minot D. Dodson, CO of the Third Artillery Group (Air Defense), at the Norfolk Army Terminal, during his inspection of the closed circuit television hook-up between the Norfolk Nike-Ajax batteries and the early warning Air Force operational station on the Eastern Shore.

Be Silent, Says CNO

Admiral Arleigh Burke, Chief of Naval Operations, dispatched the following message to all commands on 23 June:

"Insure immediate dissemination to all officers. Please do not make any state-ments in regard to events concerning me over the last weekend."

Asst. Transport Chief

Col. David B. Parker, USA, former CONARC Chief of the Special Weapons Division in the Office of Special Weapons Development, Ft. Monroe, Va., is the new Army Assistant Chief of Transportation for Research and Development, Washington, D. C. He replaces Col. William Redling, assigned to U. S. Army Alaska.

Senator Russell Issues Strong Statement On Secretary's Quantico Comments

(The following statement was issued by Senator Richard B. Russell (D-Ga.), Armed Services Committee Chairman.)

SECRETARY McElroy's weekend statement rebuking Admiral Burke for his testimony before the Senate Armed Serv-ices Committee is startling proof of the necessity for retaining the law assuring Congress of the right to receive the unbiased professional judgment of our military leaders.

"If the Congress is to meet its Constitutional duties to provide for the national defense, it must necessarily have the advice of these experts. Clear implication in the Secretary's statement that the Joint Chiefs must conform or be purged is more in keeping with the totalitarian concept of government than with our free

government of divided powers.
"The Secretary's admission that he had called the military chiefs together and advised them that their testimony to the advised them that their testimony to the committees of Congress must be given in the light of their knowledge of the views of the Executive Branch creates a grave doubt as to whether the Congress can get the free and frank opinions of these men on legislation before the Congress. A witness testifying under the sword of reprisal will find it difficult to

give his honest views.

"The Secretary's statements are in conflict with his testimony before the committees of Congress that all witnesses from the Department, whether civilians or men in aniform, should testify fully and frankly in response to any questions without fear of retaliation or penalty for such testimony

"The military chiefs have devoted their

work well." In a much more strongly worded statement than he gave to the House Committee, the CNO made these

• The House bill gives the Secretary of Defense a clear line of administrative control to the military departments.

• The Secretary exercises his control "through responsible, civilian authorities
—the Secretaries of the departments—
who answer to him for the execution of
his policies."

• "This gives the Secretary of Defense the means of decentralization to relieve him of what otherwise might be an un-manageable task. I believe this is good organization.

 The provisions of the House bill "which leave the business of strategic planning and operational guidance to the Joint Chiefs of Staff—the business of fighting to the combatant commanders and the business of administration and support to the military departments are

• The military departments "are most responsive to the needs of their own forces. They can meet these needs better than any other agency."

• If realignment of Service functions "is not done with care," a combination of "small" transfers and abolitions could impair "the ability of a Service to carry out its statutory mission."

Even if Congress goes along with the President and removes language au-thorizing a member of the Joint Chiefs of Staff to take problems to the Congress on his own initiative, Admiral Burke would not be deterred. If the national security is threatened, he told the Committee he would go to Congress regardless of what the law said.

General Thomas D. White, Chief of Staff of the Air Force, said the House bill meets the "majority" of the primary ob-jectives which he believes any reorgani-zation should accomplish. But, he added, the House-passed measure "could be im-

Senator Russell asked if the "full staff

BACKS JCS "HALFBACKS"

Senator Sam J. Ervin (D-NC) believes language should be retained in the Pentagon Reorganization Plan authorizing individual mem-bers of the Joint Chiefs of Staff to take recommendations to the Congress on their own initiative.

He said he doubts that anyon would dispute the statement that "the halfback should have the right to protest to the team cap-tain that the quarterback is not calling the right signals."

DEGREES FOR ORDNANCE OFFICERS—Five Army Ordnance lieutenant colonels DEGREES FOR ORDNANCE OFFICERS—Five Army Ordnance leutenant coloners are shown here after receiving Master's Degrees from the University of Chicago School of Business. Left to right they are James R. Mills, jr., Colin Bushway, Edward B. Krainik, John B. Scott, and William F. Kaiser. The Ordnance officers were assigned to the Chicago Ordnance District for two years to participate in the Executive Program of the University of Chicago School of Business. The only course of its kind, the Executive Program is an intensive two-year evening program for businessmen with substantial experience at the executive level. The program gives special emphasis to the broad social and economic problems which face businessmen.

functions" contemplated for the Assistant Secretaries under the Reorganiza-tion would empower them "to give in-structions to the military departments." Secretary McElroy replied, "That is correct, sir."

correct, sir.

Senator Russell noted that an earlier Defense Department reorganization or-dered by President Eisenhower had been based on recommendations which stated, in part, that the Assistant Secretaries of Defense "should not be in direct line of authority." He asked, "What changed

Secretary McElroy said the change was brought about by "the increasing necessity of developing action under policy determinations of the Secretary of Defense." Such steps have to be worked out, he said, through someone who has delegated authority because the Secretary of gated authority, because the Secretary of Defense "cannot handle them all."

The Secretary said orders to the Services will be "signed by the Assistant Secretaries, but it would be understood that they would be acting by authority of the Secretary of Defense." And, he added, such acting the services and the secretary of Defense." And, he added, such acting the services are serviced by the services and the services are services as the services are services as the services are services. such orders "would be subject to appeal by the Service Secretary."

In answer to another question by Sen-ator Russell, Secretary McElroy said it is not contemplated that an Assistant Secretary will issue an order to a subor-dinate in one of the Services without clearing it through the Secretary of the

individual Service.

Senator Russell asked if there would be any objection if Congress wrote in specific language to that effect. The Secretary said, "If it is desired to protect against that type of situation, it would be all right with me."

About half of the Committee members (equally divided between Republicans and Democrats) object strongly to the "gag" proposal. Others, sparked by Senator Margaret Chase Smith (R-Me), also lashed out at the President's order to consolidate the Defense Department legislative liaison activities.

islative liaison activities.

Senator Smith sought assurances from Secretary McElroy that the Defense Department will continue to permit the individual Services to answer any question asked by members of Congress.

Secretary McElroy said the consolidation of legislative liaison activities will not take place until the Reorganization Act is approved and the Department has

Act is approved and the Department has the authority to name an Assistant Sec-retary to head the operation. He said the Department does not plan to take all L&L activities away from the Services, but only those where it is necessary to formulate a general Defense Department point of view, principally relating to "broad legislative matters."

In other highlights of the Senate hear-

• Senator Francis Case (R-SD) suggested an amendment which would permit the consolidation, transfer, reassignment or abolition of any function of the Armed Forces if the President "deter-mines that it is immediately necessary

in the interest of national security." and "unless or until Congress by concurrent resolution shall provide otherwise." He noted that this "would still make it pos-sible for Congress to reverse the action without running into a Presidential veto."

 Secretary McElroy suggested that it might be desirable to write in new language giving the President full responsibility to determine what is "a major combatant function."

• Senator Smith castigated the "inefficient and noncooperative" operations of the office of the Assistant Secretary of Defense for Public Affairs as a "dismal failure."

 Senator Sam J. Ervin (D-NC) attacked the proposed "gag" rule with the statement that "a military man's obligastatement that "a military man's obliga-tion to his country is greater than his loyalty to the Secretary of Defense." He said he doesn't think the team concept "will justify the suppression of informa-

 Only three members of the Commit-ee—Republican Senators Prescott Bush (Conn.) and Frank A. Barrett (Wyo.) and Stuart Symington (D-Mo.) indicated unqualified support for the President's recommended changes in the Housepassed bill.

· Senator Bush said the action of the House "discourages discipline." In supporting the President's views, he said, "I don't fear a tightening up of discipline as much as I do a loosening."

Senator Leverett Saltonstall (Mass), ranking Republican on the Committee, said "Congress will guard jealously its Constitutional rights."

AF CHIEF, JUNE '53

Five years ago, an Air Force Chief of Staff, who was about to retire, did not hesitate to tell Congress of views which he held which were in conflict with Administrative de

The late General Hoyt S. Vandenberg, in testimony before the Senate Appropriations Committee (published in full in THE JOUR-NAL of 6 June 1953), asked himself a series of questions related to the need for a 143-wing Air Force. One question: "Have the Joint Chiefs of Staff approved a reduc-tion of the Air Force program 143

wings to 120 wings, either on an in-terim or any other basis?"

The answer: "They have not." General Vandenberg thus pub-General Vandenberg thus pub-licly opposed a decision that was made by his civilian superiors. His reason obviously was to place the responsibility for this action clear-ly where it belonged and to make known to Congress his professional military views on the matter.

Army FY '58 Strength Dips From 1,000,000 Once Forecast To New Goal Of 870,000, Reaffirmed By Secretary McElro

The Army, which originally contemplated an end strength of 1,000,000 for this 30 June, will begin FY '59 with 900,000 and drop to 870,000 by next

June.

Further cuts are seen possible in view of Secretary of Defense Mc-Elroy's statement at Quantico, Va., concerning manpower reductions.

Though the Army has asked Congress for more than 870,000 for fiscal for McElroy has refferred that

'59, Mr. McElroy has reaffirmed that figure as the desired objective.

ARADCOM IS 8

Now armed with an atomic punch in the deployment of the first Nike Hercules unit, the Army Air Defense Command celebrates its eighth birthday 1 July.

The Army component of the North American Air Defense Command, ARADCOM has headquarters at Ent AFB, Colo. Its Commander is Lt. Gen. Charles E. Hart.

lins, Deputy Chief of Staff for Person-nel, has devised the Senate Appropriation Committee that the Army will spend \$3.33 billion during fiscal '59 for personnel costs.

He noted Lt. Gen. Collins this is a de-crease of \$138 million from fiscal '58, and added it would have been \$43 million greater except that three new items have been added: proficiency pay, port handling charges and payment for MATS travel.

General Collins said Army plans call for \$11 million in proficiency pay during the next 12 months.

He noted that the estimate of \$28 billion for total pay and allowances if fiscal '59 is \$133 million below fiscal 5

—a result of the cut in manpower.

During his testimony, General Odlins again urged that the Army begiven authority to eliminate lower aptitude personnel from the draft.

"The continued drafting and subs quent early elimination of these low aptitude personnel," he said, "wast manpower and money.'

"OUTSTANDING SON" General W. G. Wyman, retiring Commanding General, U. S. Con tinental Army Command, was hon-ored by his native state of Maine at a surprise luncheon last week in Portland.

He was presented a framed cita-tion signed by Governor Edmond J. Muskie citing him as "an out-standing son of Maine." The cita-tion reviewed the general's colorful career and the fame he had earned for the State.

NEATNESS THAT LASTS

a tropical-weight uniform containing "Dacron" keeps you looking your best

Lightweight uniforms made with "Dacron" polyester fiber are remarkably comfortable, amazingly easy to care for. Because they're made with a high percentage of "Dacron", they have built-in wrinkle resistance . . . keep their press through many wearings. Next time you order uniforms, remember you get lasting neatness, longer life in uniforms made with "Dacron" E. I. du Pont de Nemours & Co. (Inc.), Textile Fibers Department, Wilmington 98. Delaware.

*"Dacron" is Du Pont's registered trademark for its polyester fiber. Du Pont makes fibers, does not make fabric or uniforms.

A BASIC WORK FOR UNDERSTANDING THE BACKGROUND OF MODERN HIGH LEVEL STRATEGY. IMPORTANT READING FOR EVERY ARMED SERVICES OFFICER.

THE IRON CURTAIN OVER AMERICA

General Stratemeyer

recommend its reading in every

General Almond Lt. Gen. George E. Strate-meyer, USAF (ret.), says: "I congratulate you on your book and the service you have per-formed for our country. If my health would permit it I would go on a continuous lecture tour gratis and preach your book and recommendations. My 'Iron Cur-tain Over America' will be on loan continuously and I intend to

Lt. Gen. Edward M. Almond, USA (ret.) says: "It is an inspiration to me to find an author with the courage and energy to research and to secure the publication of such information as you have assembled in order that the poorly informed average American may know wherein the real threats to our Country lurk. Your book is a magnificent contribution to those who would preserve our American ideals."

JOHN BEATY, author of THE IRON CURTAIN OVER AMERICA, is a veteran of World War I and served nearly five years in World War II with the War Department General Staff. He wrote military studies, edited the daily intelligence summary, and headed several important sections in the Military Intelligence Service. He left the service with the rank of Colonel.

In addition to his more general writing, Mr. Beaty has written textbooks used by over 700 colleges and universities. His familiarity with foreign lands and languages, and his work as a liaison officer between Army Intelligence and other government agencies, plus his ability as a scholar and writer, made Colonel Beaty well prepared for the post-war research which led to the writing of this book.

Admiral Crommelin

Rear Admiral John G. Crommelin, USN (ret), says: "Can an uninformed or misinformed citizen act intelligently to safeguard his Constitutional guarantees of freedom? Certainly not! Therefore, let me strongly recommend that as a public and personal service you read 'The Iron Curtain Over America.' Let every American read this book, t blue back speller for patriots.

General Del Valle

Lt. General P. A. Del Valle, USMC (ret.), says: "I am impelled to write to you to express my admiration of your great service to the Nation in writing this truly magnificent book. No American who has taken the oath of allegiance can afford to miss it. and I heartily recommend it as an honest and courageous dispeller of the fog of propaganda in which most minds seem to dwell."

THE IRON CURTAIN OVER AMERICA is printed in large type, in well spaced lines. The index of some 4000 entries makes it a valuable work of reference.

ing Officer of the oil tanker USS Nava-sota, Cdr. Robert W. Weber, Station Ex-ecutive Officer, will serve as interim com-mander until arrival of Capt. Rawleigh C. Kirkpatrick, jr., in August.

A reduction of about one-third in the Navy's pilot training rate and planned introduction of jet planes in the basic flight training program, have resulted in the decision to shut down NAAS Barin Field, near Foley, Ala. about 1 November. New assignments are in prospect for approximately 1,600 officers and men who support 330 students. Plans for disestab-lishment of Corry Field, in the Pensacola complex of airfields, was announced by the Navy in February.

The Defense Department's Fiscal Year 1959 Military Construction Program has been modified to include funds for construction of a parallel runway at NAS Patuxent River, Md. Earlier, the Navy had decided to develop its Outlying Field, had decided to develop its Outlying Field, Webster Field, Md., as part of the plan to shift air operations from Bolling AFB and Anacostia. A Navy survey has determined the necessary jet landing practice can be accomplished more safely, efficiently and economically at Patuxent. Webster Field will continue to be used for practice landings of propeller-driven planes.

Newest in a line of rapid-replenish-ment-at-sea ammunition ships, USS Nitro, is being readied for Fleet operations. Sister ship to the Suribachi and Mauna Kea, Nitro (AE-23), has elevators in her storage holds for servicing ships on both sides simultaneously. She has air condi-tioning in all living and working spaces and up-to-date habitability improve-ments. She is 512 feet long, has a 72 foot beam, displaces 7,500 tons, and can carry 7.500 tons of cargo.

LARGEST SUB. Artist conception of the USS To ton, the largest subman-ever built. Powered it win nuclear reactors a displacing 5,450 tons, a Triton is the Navy's in nuclear powered radnuclear powered not picket submarine. It was be launched 19 August the Electric Boat Division of General Dynamics Groton, Conn.

Two Win M/G Stars; 7 To Brigadier; Eligibility Slate Exhausted, New Boards Se

The entire slate of Regular Line officers chosen for two and one-star ranks by the Fiscal Year 1958 Marine Corps

selection boards will be wiped off the books 1 July when advancements go to two brigadier generals and five colonels. In addition, Marine Reserve Col. Car-ton A. Fisher, a Judge for the New York Supreme Court, will don his brigadier's

Regular selection boards to choose major generals and brigadier generals for the new Fiscal Year meet on 7 and 14 July.

Advancing to major general are: Brig. Gen, James P. Berkeley, en route to assume command of the Department of the Pacific in San Francisco, and Brig. Gel Donald M. Weller, HQMC G-1.

Included in the list of colonels bei promoted to one-star rank is Col. George
H. Cloud, a Supply Officer, who wa
picked by, the Fiscal Year '57 selection
board. He is on duty at the Marine Corp
Recruit Depot, Parris Island, S. C.

Line officers promoted to brigadier are Colonels Frank C. Tharin, Headquarter FMF, Atlantic, Norfolk; Robert E. Cusi man, jr, HQMC; Richard G. Weede, I Marine Division, Camp Pendleton; Lew J. Fields, Navy Department; and Leonar F. Chapman, jr., Commanding Off Marine Barracks, Eighth and Eye Str Washington, D. C. Commanding Office

Culottes Ruled Out For Navy Nurses; Sailors' Shirts May Go In Hot Weather

Elimination of the two-piece culotte from the Nurses wardrobe is one of six changes to Navy Uniform Regulations approved by Secretary of The Navy approved by Sec Thomas S. Gates.

Culottes were prescribed as an alternate grey uniform for Nurses serving

aboard ships. The Navy decided to abo ish the skirt-like breeches upon the recommendation of nurses who found then impractical. Nurses very seldom wor culottes because they were difficult to launder and did not present a neat ap

The remaining five changes to Unifor Regulations affect enlisted men.

When changes are incorporated in the Uniform Manual, sailors below the the Uniform Manual, sailors below the petty officers may be permitted to won in their undershirts in hot weather areas Commanding officers of ships and show stations will be permitted to authorize men in their commands to remove their chambray shirts while working in holdimates. In the past, EM were required to wear the long-sleeved shirt as part of the working uniform. The chambray the working uniform. The chambra shirt, however, must be worn when men leave the confines of a port or a shore

Stars Official

Adoption of stars, predicted in TH JOURNAL of 3 May, to denote petty officer advanced to pay-grades E-8 and E-9 ha been made official. One white star of the above the eagle's head on above the eagle's head on cer's rating badge indicates that a mai is serving as a Senior Chief Petty Office. Two stars located horizontally above the eagle's wings will be worn by Master Chief Petty Officers.

The Secretary also authorized unidentifying sleeve marks for enlisted melbelow the rank of CPO assigned to Amphibious Construction Battalions. The authorization puts the men on par with EM in Mobile Construction Battalions

Band Device Change

The cap device consisting of a gold ly superimposed on the shank of a gold plain anchor, presently worn by substead members of the U. S. Navy Ban and the U. S. Naval Academy Band, has been modified by placing the silver let ters "USN" on the stock of the anchor immediately shove the lyre. immediately above the lyre.

The recently reestablished general service rating of Shipfitter will be given a specialty mark consisting of two crossed mauls, heads up. This is the same mark worn by Shipfitters before the Nati divided the rating into Metalsmith and Pipefitter. Pipefitter.

DEPENDABLE, SCHEDULED SERVICE SAVES MILLIONS OF VALUABLE MAN HOURS FOR THE MILITARY

GROUND-BREAKING AT ROBINS Maj. Gen. A. V. P. Anderson, jr. (right), WRAMA Commander, extends the honor of taking the first shovelful of earth in the Capehart housing ground-breaking ceremony at Robins AFB to John F. Thigpen of Atlanta, Field Office Director for the Federal Housing Administration. The ceremony marked the beginning of construction on base of 273 modern dwellings for military personnel and their families with completion date scheduled

Base Supply Officer Gets Increased Role; Air Force Tells Policy For Filling Slots

The Air Force reports that with the emergence of new, complex weapon sys-tems and advanced concepts of supply support, "the position of Base Supply Officer has assumed an ever increasing im-portance in the overall picture of Air Force operations."

Base Supply Officers today may manage accounts ranging up to many millions of dollars in value. These accounts must be conducted within the dictates of economy, yet fully responsive to the varied and vital military needs of their particular

A mission such as this would tax the capabilities of even the most astute logistics executives of industry, the Air Force said.

In the past, the Air Force has made little differentiation among its base supply accounts with regard to the size deof activity or importance. Similarly, too little stress was placed on the grade, experience and professional competency of officers assigned to manage these accounts.

Maj. Gen. C. J. Bondley, jr., Director of Supply and Services, has just announced that the Air Force has initiated the Base Supply Categorization Program to correct these deficiencies and insure sound and progressive management of its multibillion dollar base supply business.

The program establishes Air Force policy that grade authorizations for the position of Base Supply Officer are to be commensurate with the base's mission requirements, complexity, value and over-al! importance. Further, these slots are to be filled by officers whose grade, trainand ability fully qualify them for such an assignment.

Under the program, commands will categorize their supply accounts accord-

ing to such factors as number of line ing to such factors as number of line items stocked, value and activity of account, and types and missions of organizations supported. Accounts will be categorized as "A", "B" or "C", with recommended Base Supply Officer grade authorization of colonel or lieutenant colonel maintenant colonel nel, major or captain, respectively.

At least one-third of all "A" accounts should call for the grade of colonel.

An important feature of the program is the testing requirement which is designed to insure the professional fitness of officers assigned as managers of base supply accounts. Test scores, supplemented by points awarded by command boards, will determine the account category an individual is qualified to manage. Boards will take into consideration the officers' previous experience in supply, prior assignments, training, growth potential, current performance and effectiveness reports in awarding supplemental points.

Officers qualifying as supply account managers will be awarded AF Form 433, "Base Supply Officer Categorization Identification Card," indicating the appropriate account category.

General Bondley emphasized the Air Force-wide effect that the Categorization Program has on USAF supply support activities when he said: "We now have in the control of the being a systematic approach for selection and assignment of supply officers who will progress to more important positions. It will provide increased advancement opportunities for our officers of demon-strated ability and qualifications."

Douglas Thor School Graduates First Class

First Royal Air Force and U. S. Air Force personnel to attend the newly-established Thor Intermediate Range Ballistic Missile school were graduated in ceremonies at Tucson, Ariz., 24 June.

The first class of 82 persons, including enlisted men and warrant officers, was comprised of 45 RAF and 34 USAF personnel and three civilians

This was the initial contingent in what is expected to be the largest joint training program since World War II. It is being accomplished by the Douglas Aircraft Company, builder of the Thor missile, under contract to the Air Training Command of the U.S. Air Force.

Principal speaker at the graduation ceremonies was Brig. Gen. Horace Wade, Director of Personnel for the USAF Strategic Air Command. Also participating were Col. A. W. Stephens, Chief of Staff. 1st Missiles Division, Cooke AFB, and B. W. Clawson, Tucson Plant Manager for Douglas.

The Thor School comes under the jurisdiction of Lt. Gen. Charles T. Myers, Commander, Air Training Command, Randolph AFB.

SECOND DSM is presented to Maj. Gen Joe W. Kelly, USAF, right, by Secretary of the Air Force James Douglas, General Kelly leaves the Pentagon in July after five years as Director of Legislative Liaison in the Secretary's office. He become nander, Air Proving Ground Center Eglin AFB, Fla.

Four AF Bases Set For Titan Training

The Air Force will use four bases to rain its personnel for use of the Titan ICBM.

The Martin Company, which is prime contractor for the Titan, and other manufacturing firms will assist the Air Train-

ufacturing firms will assist the Air Training Command in preparing crews.

Sheppard AFB, Tex., will be responsible for training in airframe and associated ground support equipment. Chanute AFB, Ill., gets the Titan propulsion mission. Lowry AFB, Denver, is responsible for the reentry vehicle and Keesler AFB, Miss., for guidance.

RCA System Speeds AF Reserve Plans

Air Force Reserve mobilization potential will be strengthened by the installation in October of a Radio Corporation of America 501 Electronic Data Process ing System at the Air Reserve Record

Center in Denver.

The transistorized computer—one the first of its kind in the Nation—will enable a review of every record of almost 500,000 Reservists in less than two hours

Brig. Gen. W. C. Morse, Records Center Commander, says the computer will save more than a quarter million dollars

a year.

The system permits 53 items of information to be maintained on every officer.

41 for airmen.

The information is stored on magnetic

tape that can be fed into the computer. Day to day uses of the system will include keeping addresses current, identifying Reservists who are eligible for promotion, discharge, assignment, retirement, and other administrative actions.

First Housing Opened At AF Academy; Plans Call For 1200 New Quarters Air Force Academy senior officers and professors are moving their families into the first 44 houses completed this month at the Academy's site near Colorado

Springs, Colo.

Within the next 18 months, an additional 1,200 housing units will be readied for Academy officers, airmen and their families. A total of 632 units will be set aside for airmen and their families, and 568 for officers.

The first 44 units, built by Robert E. McKee, General Contractor, Inc., Santa Fe, N. M., cost \$1.9 million, including streets, grading, drainage and utilities.

The remaining 1,200 units will cost \$17.5 million. They will be built by the Del E. Webb and Rubenstein Construction Companies of Phoenix.

All but 74 of the new units will have three or more bedrooms, with a minimum of 1,100 square feet of space.

60th Troop Carrier Wing Will Be Inactivated

The 60th Troop Carrier Wing Head-quarters at Dreux AB, near Paris, will be inactivated early this September, it is announced by USAFE Commander-in-Chief, General F. F. Everest.

The action will include phase-out of headquarters functions and the retireof the 376th, 377th and 378th Troop ment of the 310th, o Carrier Squadrons.

The 60th, equipped with Fairchild C-123 Provider and C-119 Flying Boxcar transport aircraft, is commanded by Col. Randolph E. Churchill.

Reduction in size of USAFE air transport force follows stream-lining of sup-ply channels to Europe by the Air Materiel Command and the introduction of the Lockheed C-130 Hercules into the command's inventory of aircraft. The capability of the C-130, which flies farther, faster, and carries over twice-much cargo, makes the reduct possible.

Where transport aircraft of USAFE 322nd Air Division formerly supplied units in Europe, North Africa, and the near East from major depots in the United Kingdom, France and North Africa, aircraft from the U.S. can now fly high priority supplies directly to the units concerned, thus eliminating many previous requirements for intra-theater airlift.

AF Tool Directorate Established At Robins

A new Directorate of Industrial Production Equipment will begin work 1 August at Robins AFB, Ga., to manage the Air Force's reserve tool program.

Taking over functions formerly performed by the Air Materiel Command Directorate of Procurement and Production and Directorate of Supply at Wright.

tion and Directorate of Supply at Wright-Patterson AFB, Ohio, the new organiza-tion will have management and control responsibility for a vast inventory of industrial production-type equipment and machine tools to support both the Air

Force and industry.

It will serve as a central point for Government contractors authorized machine tools and production equipment to screen combined Air Force inventories. To simplify the screening process, contracts will soon be let to commercial concerns for identification and inspection

of all Air Force industrial production equipment world-wide.

Directorate Commander will be Col.

Herman V. Dietze, present Chief of the Savannah, Ga., AF Storage Station.

Castle ISO To Biggs

Capt. Robert W. Stephenson, Informa-tion Services Officer at Castle AFB, Calif. for the past three years, is being transferred to the 810th Air Division Headquarters at Biggs AFB, Tex., 21 July, His successor is Capt. John A. Muth.

President Asks 4th Star For Gen. Cabell; Air Force Will Have 12 Full Generals

President Eisenhower has asked the Senate to confirm the nomination of Lt. Gen. Charles P. Cabell, USAF, who has been Deputy Director of the Central Intelligence Agency since April 1953, for promotion to four-star rank.

General Cabell, 52, is a USMA '25 graduate, who has held general officer status since 26 February 1944.

His promotion will raise to 12 the number of four-star Air Force officers, listed here in order of precedence.

The others are:

Nathan F. Twining-JCS Chairman Thomas D. White-Chief of Staff

Lauris Norstad-Supreme Allied Commander, Europe

Curtis E. LeMay-Vice Chief of Staff Earle E. Partridge-North American

TAC ADDS THREE

Three Air Force bases will be added to Tactical Air Command 1 July following transfer from the Air Training Command.

They are Luke AFB and Williams AFB, both near Phoenix, and Nellis AFB near Las Vegas.

The transfer of the three bases is a further development of TAC plans to train its tactical pilots entirely within the command.

During the Korean War, Luke and Nellis were assigned the mission of combat crew training for jet fighter pilots.

Formerly a basic pilot training school, Williams was added to Air Training Command's combat crew training complex in 1956.

The USAF Fighter Weapons school at Nellis was transferred to TAC earlier this year.

Pacific Air Materiel Force Spends More Than \$73.5 Million Over 10 Million Square Miles

Total Fiscal Year 1958 expenditures of over \$73.5 million have been reported by the Air Materiel Force, Pacific Area (AM-

PPA).
Under the command of Brig. Gen. Harry
C. Porter, USAF, the Pacific arm of the
Air Materiel Command's worldwide logistics system maintains supply lines and bases covering almost 10 million square miles of land and sea, and a logistical network of bases, warehouses and supply items valued at more than \$600 million. Within its huge geographic area, AM-

FPA's 5,500 military and 14,650 personnel support all U. S. Air Force combat units and those of other countries being developed through the Military Assistance

Program.

Key control center for the huge logistics operation is AMFPA Headquarters at Wheeler AFB, Hawaii, where 150 offi-cers airmen and civilians direct Pacific-

wide planning, policy and programming.
Main Force divisions are the Northern
Air Materiel Area with headquarters at
Tachikawa, Japan, and the Southern Air

Force organizations within their areas as well as support for the Air Forces of such countries as Japan, South Korea, Taiwan, Philippines, Cambodia, Laos, Vietnam, and Thailand.

Support for foreign air forces under the Military Assistance Program is di-vided into three broad categories: milimachine tools and related equipment. In addition, AMFPA forces contribute greatly to the growing management leadership within the MAP countries.

ship within the MAP countries.

Pacific Air Materiel Force and its two air materiel areas were activated in 1955, when the Air Materiel Command assumed all depot and logistic responsibilities from the Far East Air Force and Far East Logistic Force. It was commanded until May of this year by Maj. Gen. W. T. Hudnell, newly assigned to Air Materiel Command Headquarters, Wright-Patterson AFB, Ohio.

28 JUNE 1958

Industry—Key Member Of National Defense Team

Since the early beginnings of Armed Forces the suppliers of weapons and equipment have been an indispensable part of the elements that go to make up a Nation's strength. Without them, the military organization becomes a weak mob.

In today's age of technology, the industrialists, skilled workers, scientists and research men outnumber the fighting men in uniform many times over. In fact, the defensive and offensive power of a nation may be measured by the efficiency, skill, and patriotic devotion of the people in industry. Of the approximately \$40-billion appropriated for the Armed Services in the fiscal year that starts 1 July, substantially more than \$20-billion will go directly to buy the products of industry.

So important is industry in the defense picture that large proportions of the personnel in all of the Services are assigned to work with suppliers on duty such as procurement, research and development, liaison in the creation of new weapons and equipment, inspection, and training of com-

The United States is particularly fortunate in this respect, for our system of free enterprise, together with the patriotic spirit of our chiefs of industry and their workers, supplies an incentive not possible in nations ruled by dictators and regimented by state control. Because of the difficulties of dealing with the government as compared with free trade in the civilian consumer market, it is a tribute to American business, big and small, that such a large majorty of them are participating in the defense program.

The great technical and production facilities of big business, whose future and profits lie primarily in the civilian market, such as International Telephone and Telegraph Co., General Motors, Chrysler, General Electric and many others, are at the call of the military services, and their contributions have been many and great. Small business, from the little machine shops to the larger producers of civilian items, are contributing to the National Defense under the wise system of subcontracting whereby they produce special parts for which their organizations are particularly fitted. An interesting recent example of a new entry into the defense field is that of the Singer Manufacturing Company, whose long experience in producing sewing machines gives it special skills in precision work. Through the acquistion of new subsidiaries experienced in defense research and production, Singer is now prepared to take its part in building up the Arsenal of Democracy.

In addition to the thousands of firms working on weapons of the future, there are myriads of others offering their facilities and know-how for the supplying of off-the-shelf items-items of necessity and comfort for the soldier, sailor, airman, and marine, and their families. A military organization can not move without such products as textiles, leather goods, recreational equipment, automobiles, food, construction material, and the like. These are furnished by other thousands of firms who keep Americans all over the world supplied with the high quality every-day items to which they and their families had become accustomed in their civilian life at home.

The willingness of these firms to take part in the defense program is demonstrated by the numbers listed in this week's issue, wherein on pages 16 to 21, inclusive, they express their readiness to accept and perform whatever tasks the Services may desire of them. With such capacity already existing and willing to expand to meet defense needs, the Nation has a great potential possessed by no other country. To keep it alive and alert is a fundamental base of our national security.

Why The Delay In The Rueger Case?

One would think that the Navy, after bungling its treatment of the case of former Cdr. Robert B. Rueger, would be prompt in replying to the request of the House Armed Services Committee for a recommendation on proposed legislation to govern his treatment and similar cases in the future. Yet, as reported on page 1, six months have passed since Representative Kilday introduced corrective legislation and the Committee asked the Department for its comments.

The Navy acted most promptly in disenrolling Commander Rueger,

as a retired officer when he was convicted of manslaughter for shooting an uninvited guest after a quarrel at his home. Despite an unblemish record of nearly 30 years of active duty, the Navy, with the acquiesce of the President, removed his name from the retired rolls and barred his and his family from receiving retired pay. Yet, through faulty liais between the Bureau of Personnel and the Bureau of Supplies and A counts, his checks were not stopped, so that when he was paroled la winter he returned home to find the Navy was dunning him for \$3,7 it had erroneously paid.

The House Armed Services Committee has been unhappy about # handling of this case and wants to be sure that in similar instances the future the rights of officers to their retired pay will be protecte Navy witnesses have admitted that a more humane attitude might ha been shown in the handling of this problem. Yet, apparently, the Nav Department is still at odds with itself as to what position it should tale otherwise it would have given its views to the Committee some time as

We urge that the Armed Services Committee proceed with its legisl tion regardless of the Department's dilatory action. Otherwise the Rues family, and others who may be caught in the same position, will contin to suffer even though they have given their best years in the defense

A Case Of Legislative Folly

Admiral Arleigh A. Burke, Chief of Naval Operations, has give Congress the best comment we have heard on the pros and cons of the Administration-sponsored provision of the Reorganization Bill which would eliminate the current right of members of the Joint Chiefs of Stal to take their differences to Congress.

With admirable forthrightness, Admiral Burke said that whether such a provision was in the law or not he would take his case to Congres if he felt the National Defense was jeopardized.

General Thomas D. White, Chief of Staff of the Air Force, put another way. He felt that if he were in the position where he was n en rapport with the policies of the Administration, he would resign hi position and then go to Congress.

With such strong views on the part of our professional military leaders, how can the Administration hope to prevent what the President euphemistically calls "legalized insubordination"? The American systematical system requires the right of free expression and Congress has a Constitutions directive to maintain and support Armies. We do not believe that the rights and prerogatives can be abridged by legislative provisions. W believe it's folly for the President to try.

READERS' VIEWS

■ In recent issue of THE JOURNAL a "Capt. USMC-Ret" deplores the recent enactment of pay legislation which did little for retired personnel. I could not agree more with what he says regarding the ill effects of such legislation. However, I cannot agree with him at all as to who is responsible for passage of the Cordiner Act in its final form. The Captain blames Congress. That is not the way it was in the news articles I read on the subject. As I read it. Congress was willing to give retired per-sonnel a reasonable increase, but the Administration wanted retired personnel to get ZILCH. The fact that Congress gave us a six per cent raise is credit to congressional sound thinking. Lt. Col. USA-Ret.

In an effort to maintain the traditional Cavalry spirit in today's modern army, the 7th U. S. Cavalry Association has urged that all former members of the 7th U. S. Cavalry Regiment forward their current name and address to the Regimental Association Headquarters. The Association was organized in 1932 for the purpose of perpetuating the tradition and spirit of the historic and colorful 7th U. S. Cavalry Regiment.

The members of this Association in-

clude old "saddle bumpers" in whom the memory of Custer, Terry and Gibbon are strong, as well as Cavalrymen from the wars of the 20th Century. The Association holds annual reunions, publishes quarterly bulletins for its members, and maintains contact with the members through correspondence. You are sure of getting the up-to-date news of the Regiment and its members, past and present, by joining the 7th U. S. Cavalry Association.

This organization is non-profit. There (Letters to the Editor must have author's name and address, but name will be omitted on publication if the author so states. Longer letters will be extracted for publication.) is no initiation fee, and the dues a only \$1.00 yearly. That dollar defrathe cost of publishing the bulletins an maintaining correspondence.

Former members of the 7th U.S. Ca alry Regiment are urged to send all with their current address to: 7th U.S. Cavalry Association, 1932 West Place, Los Angeles 62, Calif. FORREST M. BEESON West 43

LSERVICE LEADERS greet Dr. Theodor Heuss, President of the West German deral Republic, as he arrives in San Francisco. Left to right: Mayor George ristopher, Dr. Heuss, Mr. Wiley T. Buchanan, jr., U. S. State Dept., VAdm. arice E. Curts, USN, Commander, Western Sea Frontier, Lt. Gen. Charles D. Imer, USA, Sixth U. S. Army Commander and Maj. Gen. Hugh Parker, USAF, Commander, Western Air Defense Force.

WHEN IS AN INVITATION NOT AN INVITATION? REORGANIZATION DEBATE PROBES PROBLEM

Air Force Chief of Staff General Thomas D. White and Senator Styles Bridges (R-NH) drew hearty laughter from a packed Armed Services Committee hearg on the Pentagon Reorganization Plan.

During his testimony, General White said he favors the President's request to eliminate from the House-passed Reorganization bill the section reading:

"No provision of this Act shall be so construed as to prevent a Secretary of a military department or a member of the Joint Chiefs of Staff from presenting to the Congress, on his own initiative, after first so informing the Secretary of Defense, any recommendations relating to the Department of Defense that he may deem proper."

General White said all citizens have an inherent right to go to the Congress, nd that the provision in the bill is an "open invitation" to disrupt team play in the Defense Department.

Senator Bridges disagreed. He said if he received a letter from General White saying "nothing is to prevent you from dropping in at my house for a visit," he would not consider it an invitation.

When the laughter in the hearing room subsided, General White remarked that he would not, of course, so phrase such an invitation. But, since the Senator had brought up the subject, the General added: "I don't know that you have an inherent right to come to my house." That brought more laughter.

Hear this "uniform" appeal to ream—inspired by recent announcement at the white dress uniform for female ilitary personnel includes white shoes. For many years, the only military peronnel who wore black shoes with white niforms were Cadets, U. S. Military cademy. As a sometime cadet, I might cademy. As a sometime cadet, I might that we always wondered why we had a wear black shoes with our all-white ress uniform; black scuff-marks on this trousers are so striking! After all, ur Navy brothers, the midshipmen, one white shoes with their all-white sid Navy officers and Army officers, well. After World War II, I bought white uniform—and of course white loes—a proper, good looking uniform. hen came The Great Leather Change, and in the interest of uniformity or mething, out went the white shoes, ad back came black scuff marks on this trousers, except for the female hite trousers, except for the female niform. Please, DA, can't we have hite shoes for the white dress uni-

Another change that has always puz-td me—a matter of color—the disap-erance of the stripe of branch color um trousers of the blue dress and Tousers of the blue dress and be mess uniforms. Why such halfway easures—why not eliminate branch from the lapels of the blue less jacket? Was this an oversight? It is keep that, and bring back be branch trousers stripe as well. The resently authorized bullion costs most and looks best until it has been folded. resently authorized bullion costs most and looks best until it has been folded creased several times. The nylon is, but doesn't look as good. Both are lite lacking in the dash of color once worlded by the branch stripe. Please, & can't we have the branch stripe ick on the blue trousers? on the blue trousers?

ick on the blue trousers? There's one final whimsy of uniform at intrigues me—the black cummerand now authorized for the white se uniform. This is the most comtable—yet one of the most colorless iforms authorized by Army Regulana, Why can we not brighten the lite mess with a cummerbund in the

branch color?
For the bi-colored branches, a plain cummerbund of the first named color of the branch would suffice, alternatively, a horizontal division in each of the two colors, or even alternating di-agonal stripes about the circumference, though at least one branch might ob-ject to this as smacking of peppermint candy. Whatever is adopted, let it be optional—as the black cummerbund is presently. Please, DA, can't we have distinctive cummerbunds in branch color for the white mess uniform?

"GREY HEAD, WHITE COAT, AND BLACK SHOES."

■ In a recent issue I noted an article on the Air Force Policy on recall of enlisted men to commissioned status. In view of the fact that the Air Force policy in the past catering to the college ROTC to fill the commissioned ranks has been a failure, mainly due to the lack of training in ROTC and then finding the AF flooded with the disgruntled officers who left the AF as soon as possible, having no intention of making it

On the other hand today you have hundreds of degreed young Reserve officers with ten to twelve years service omeers with ten to twelve years service who have accepted NCO rating to stay in the AF as a career yet they have qualified as Regular AF officers yet are not on active Commissioned service so are not eligible for regular commission. In the past much has been said and done in the AF on man power yet here done in the AF on man power, yet here before their very eyes are hundreds of fine officers serving as NCO's. Remember, you can make a good NCO an offi-cer but all officers do not make good NCO's.

Let's quit playing Russian games with these youngsters' lives and recall them to active duty in their Reserve rank. Let's give them a chance to compete with the present active officer for Regular Commissions. Let's apply some of that Democracy that the Doolittle Board made.

RETIRED AF COLONEL

How To Make A Military Budget? Secretary McElroy Tells His Answer

(Secretary of Defense Neil H. Mc-Elroy was asked here by Mr. Lloyd Norman, Newsweek magazine military affairs specialist, about the problem of expenditure ceilings in connection with the preparation of a defense budget. In the past, Pentagon leaders frequently have said that ceilings were not imposed in advance.

Here is the candid answer given by

Secretary McElroy:)

"You have to go at a budget one way or another. You either say well, now just think up anything you would like to have under conditions where money is no factor.

"That is a ridiculous kind of thing to do because you have got the kind of dreamy stuff that is unrealistic and then you have to go to work and cram it down within something that does make some sense,

"There always will have to be some sort of determination by the people that have the political responsibility in government, and that really means the President and the Secretary and the Secretaries of the Services, as to just what kind of figure does really make sense as a figure that will support a needed defense effort.

"Now you can either start out and do what has been done sometimes in the past, which is to encourage each Service to think up really what, as I

say, what it would like to have just without regard to money.

"The other thing you do, you could do, would be to determine on a figure which looked to the militarily responsible people that it made some sense based on their knowledge of what the costs are likely to be for the kind of defense effort that they felt was necessary, and then let the Services find their way into the best possible pro-grams that they could make within those figures.

"There are two different ways of going about it.

"You never have to do that hard

"You never have to do that hard thinking until you come down to the end of the road, and then in my judgment you get a far less quality, less good kind of hard thinking, because there isn't very much time then.

"You waste a good deal of time in that interim, and then there is a pretty hectic kind of business of cramming the foot into the small shoe, and I don't think it is as good a job for the country.

Weapons Cost Up, Manpower Down

From first page— plans must be firmed for work on the fiscal '60 budget.

As far as manpower is concerned, Secretary McElroy expressed what will be the basic guideline:

"I think that there has got to be public understanding of the likelihood, and there needs to be public hope that we can do what we need to do with smaller forces in all of the military departments."

The Army has said it needs more than the 270 000 men provided in the food 150 cm.

the 870,000 men provided in the fiscal '59 budget. The Marines also have asked for increases above the 175,000 goal, and the Air Force has indicated that it may not be able to do the job with the projected strength of 850,000.

Obviously, the Service Secretaries and the Service Chiefs in the weeks ahead will strive to convince Secretary McElroy will strive to convince Secretary McElroy
that although the "unit of firepower for
unit of manpower" equation is feasible
in industry, such a neat relationship is
not entirely practicable in the Services.
Mr. McElroy himself took cognizance
of this problem in his talk with newsmen

at Quantico.

Speaking about manpower cuts, he said: "I don't know whether we can or whether we can't. "I am saying that the first thing that

you must look for is your military capability to be in proportion to what your obligations are." Asked if there is an ir-

reversible trend towards smaller forces

and perhaps ultimately fewer weapons systems, the Secretary replied:
"Well, I am saying that the logic is in that direction if you can possibly do it and maintain the military capability that you require"

you require."
Although the briefing sessions during the Secretaries Conference were held in secret—newsmen were not even provided with security-cleared condensations—it is known that the twin problems of rising costs of weapons and the need for cutting manpower figured prominently in

The past five Secretaries Conferences at Quantico have given increasing attention to the relationship of units of firepower and units of manpower, but prob-

power and units of manpower, but probably never as intensively as during the 1958 get-together.
Once Congress completes action on the fiscal '59 budget and the Reorganization Bill, Secretary McElroy and his aides, and the Joint Chiefs of Staff will develop force level plans for approval by President Eisenhower for fiscal '60.

In the past, the Services were asked first to submit recommendations of force levels and costs, and then these were pared.

pared.
Mr. McElroy doesn't think that is the best way to handle a military budget. His viewpoint on this subject is expressed in the article above.

memo

IT'S A CURIOUS FACT to newcomers on the Pentagon scene—one Secretary McElroy seemingly has learned by now — that there is more leverage to enforce conformity at the top echelons of free enterprise industry than at comparable levels in the discipline-bound Armed Forces. There is little doubt, for example, that public opposition by a subordinate official of a leading firm, say Procter & Gamble, to a final and fundamental policy decision of the top executive officer — perhaps to change the color of Ivory soap from white to green — would mean dismissal for divisiveness.

IN THE ARMED FORCES, where strict discipline to orders is a basic requirement for successful fulfillment of all manner of missions, there is nonetheless a traditional insistence by Congress that ranking officials, military and civilian, not surrender the right to express their viewpoints, even if these may vary with the stated conclusions of the Secretary of Defense and the President. Congress demands that all responsible Defense officials state their honest convictions.

BECAUSE NATIONAL SECURITY is such a paramount concern of all citizens, any military leader who is worth his salt will not fail — in the absence of a direct order from a superior — to give Congress his candid views. At the same time, of course, no responsible military man will leave any doubt whatsoever that he would execute to the best of his ability, any order from civilian superiors, regardless of whether he agrees with the order or not.

INDUSTRY CHIEFS who take high offices in the Defense program often have been surprised and disturbed by the freedom of expression demanded of military men. These industry officials sconer or later learn that although the head of a private company has the power to assure 100% pure public conformity from his subordinates, this is not possible in the Armed Forces—not even by the President unless the Chief Executive or the Secretary of Defense is willing to assume the responsibility for giving an order. Then, there's no question of possible divisiveness of viewpoints, unless, of course, an officer should decide to retire.

PENTAGON NEWSMEN who have not been enthused over the policy which denied them access to the Service Secretaries through periodic press conferences won't count a session they held with Secretary of the Army at Quantico, Va., on Saturday afternoon, 21 June. It lasted less than two minutes. The Secretary appeared only to deny emphatically reports published that day that he was considering resigning because of disappointments in the treatment of the Army. Asked why it was taking so long to name an Army Under Secretary—Mr. Charles C. Finucane resigned 1 April, returned to civilian life and subsequently has been designated Assistant Secretary of Defense for Manpower, Personnel and Reserve—Mr. Brucker said the delay was the result of pending action on the Reorganization Bill.

No MILITARY FAMILY will begrudge the fact that Mrs.

Neil H. McElroy has been receiving dental care at Walter Reed Army Hospital in Washington.

They would hope, however, that the Defense Department will not abandon efforts to improve dental services for military wives and children—particularly since such care has been drastically curtailed during the past 18 months.

-2-

THE PRESIDENT'S LINE BY LINE participation in Reorganization Bill action was demonstrated anew during Senate hearings when Secretary McElroy was asked to comment on criticism about combining Pentagon legislative liaison activities on Capitol Hill. At present, each Service has an office. "The matter is out of my hands, having been directed by the President," said the Secretary.

SECDEF MCELROY'S CONCERN over rising weapons cost, as expressed during last week's Secretaries Conference at Quantico, Va., is illuminated in the story of LST 857. Built in 1944 at a cost of about \$1,684,000, she is now being converted to a missile test and training ship, particularly for the Regulus II missile. Redesignated USS King County, the LST will cost \$10,000,000 to convert—more than 5 times her original pricetag.

TEN YEARS AFTER UNIFICATION, the Air Force is seeking legislation to change the designation of the peacetime heroism award, "The Soldier's Medal," to the "Airmen's Medal." The Air Force also wants the Distinguished Service Cross changed to the "Air Force Cross," thus making it similar to the "Navy Cross." It's part of a move to strengthen Service traditions in the Air Force.

THE TRADITION DRIVE in the Air Force will see a number of units receiving designations of combat-famed outfits. There is some controversy to this action within the Air Force, based on the contention that new type missile organizations should not carry old designations. Air Force leaders are of the opinion, however, that the preservation of tradition enhances morale—as certainly was the conclusion of the Army in maintaining the 1st Cavalry Division on the rolls.

THE PENTAGON MISSED A CHANCE to seek increased public support for House-passed Reorganization Bill changes proposed by the President when a decision was made to withhold from newsmen security-clear excerpts from briefings during the Secretaries Conference at Quantico, Va. Administration anxiety to get its points across was demonstrated in unusual fashion at the President's news conference last week. The session ended with the Chief Executive declaring: "No one gives me an opportunity to talk about defense." Reporters ignored the cue; anxious to file stories on the Sherman Adams comments, they dashed from the room.

GIFTS IN THE NEWS: Brig. Gen. Ralph T. Nelson,
Commander of Ft. Huachuca, Ariz., has sent
his West Point classmate ('29), Maj. Gen.
David H. Buchanan, Ft. Riley, Kans., Commander, two chula bears, known scientifically
as coati mundi of the raccoon family. The
bears are named "Dave" and "Kitty" after
General Buchanan and his wife.

A LACK OF UNIFORMITY in administration of military justice has come to the fore. The Navy has been told to halt the practice of sentencing sailors to solitary confinement—something the Army and Air Force previously were barred from doing. The Army and Air Force at present are prohibited also from "bread and water" sentences, but the Navy still has such authority.

ATOMIC PROGRESS in the Services is pointed up with an Army announcement of plans for the third cycle of training for enlisted men as nuclear power plant operators beginning next January. Six months academic training at Ft. Belvoir, Va., is followed by another half year of operational training. The Army's first nuclear power plant for field use will be constructed in Alaska.

What—exactly—do you intend doing with your new pay increase? It's an important question because if you don't make specific plans NOW you never will. You'll soon form the habit of spending it and the increase will simply disappear.

INVEST NOW FOR RETIREMENT INCOME

By investing part of your pay increase in investment companies, on a periodic purchase plan, you will build toward a secure financial future for yourself and your family. Then you will not be in the position of those who retired only 15 years ago and have since seen their retirement checks lose about half their buying power.

MCTSA Begins Contractor Inspection 1 July

A new contractor inspection program will be put into effect by the Military Clothing and Textile Supply Agency, Philadelphia, on many of its bids released during July.

The new program, requiring contrac-tors to perform all examinations set forth in the applicable Quality Assurance provisions, will later be expanded to cover all items procured by the Agency. Items to be immediately covered by

Items to be immediately covered by the contractor inspection program include: Shoe, Safety, High Cap Toe, Black; Tent, Shelter-Half; Uniform, Tropical Worsted; Shirt, Man's, Ctn, Green Utility; Mattress, Bed; Covers, Mattress; Cloth, Ctn, Wind Resistant; Cloth, Ctn, Drill; Cloth, Wool, Knitted.

Contractors' responsibilities will include inspection of components and items and

inspection of components, end items, and packing and marking operations. Where in-process inspection is specified, they will be required to establish and maintain process examination system. Results these examinations will be recorded for comparison with the results of Government verification inspections.

Government inspectors will be available, the Agency said, to render advice and assistance to contractors in perfecting their inspection procedures

Army Aviation Unit Built At New Cumberland

Construction has begun on a \$1 million irplane hangar and taxi landing strip at New Cumberland General Depot. Pa. Scheduled for completion in 18 months,

the enlarged Army aircraft facility will provide fourth-echelon maintenance for all Army aircraft in the northeast United

The hangar will include 35,000 square feet of space, of which 15,000 square feet will be occupied by administrative and shop facilities. The taxi-strip will connect the hangar with the Harrisburg State Airport.

Secret Briefing Set For Industry

A highlight of the Air Force Associa-tion's 1958 Convention and Airpower Panorama at Dallas 25-28 September will "secret" briefing session for industry.

General E. W. Rawlings, head of the Air Materiel Command, will be the principal speaker at the industry meeting on 27

September. More than 2500 persons are expected to register for the AFA convention.

Association officials report that more than 90 firms have reserved space for the Airpower Panorama, described as the largest airpower exhibition in the nation.

Secretary Brucker Honored By Reserve Officers Assn.

Secretary of the Army Wilber M. Brucker has been awarded the Distinguished Service Citation by the Reserve Officers Association.

Officers Association.

The award, presented at a ceremony during the Association's 32d annual convention at Atlantic City, N. J., 25 June, is made each year to civilian and military leaders who have significant contributions to national security.

Franklin S. Orth, Deputy Assistant Secretary of the Army (Manpower, Personnel and Reserve Forces) also received the ROA's award

the ROA's award.

Army Chemical Chief Applies For Retirement

Maj. Gen. William M. Creasy, Chief Chemical Officer of the Army, has ap-plied for retirement, effective 31 August, for personal reasons.

General Creasy has held the top Chemi-

cal Corps post since 8 May 1954.
A '26 graduate of the U. S. Military
Academy, General Creasy is 53 years of

Col. Pell, i structor on the Infantry School's A tillery Committee. Col. and Mrs. Pell w leave Fort Benning this month for the new station at Fort Bragg, N. C.

"Free Choice" MediCare Ban Seen

From first page

cases where Service medical facilities are not available

The Committee's recommendations will go to Assistant Secretary of Defense (Health and Medical) Dr. Frank B.

The decision to make the study was prompted by House action in limiting MediCare expenditures during the com-

ing fiscal year to \$60 million.
This is about \$12 million less than the Administration requested and \$30 million below revised estimates which the Pentagon has since given to Congress.

In knocking the requested funds, the House Appropriations Committee said it believes no dependents of military personnel will be denied medical care "if the Secretary of Defense will issue such regulations as are necessary to require the dependents to use military medical care". facilities and personnel where they are adequate and available."

The Secretary has authority to take such steps under present law,
The situation meanwhile is being stud-

ied by the Senate Appropriations Committee whose members have indicated reluctance to provide additional funds for

the program above the sum voted by

Members of the Ad Hoc Commi

Army—General Robinson (Chairma Brig. Gen. Sam F. Seeley, Col. Harold Larson, Lt. Col. James L. LaCombe, C Floyd Wergeland, Lt. Col. Ernest Rivas, Maj. Warren C. Casey, and C

Office, Assistant Secretary of Defe Office, Assistant Secretary of Defense for Manpower and Personnel-Lide Vivian Newcomb, USN (W). Alternate Lit. Col. George E. Sutton, USAF. Office Assistant Secretary of Defense Health and Medical—Donald M. Aldeson, USAF (Executive Secretary). Department of HEW—Drs. Kennel Nelson and C. J. Wagner.

One more representative of the Force was still to be named.

Force was still to be named.

The large representation from th
Army is accounted for by the fact th
the Army is Executive Agency for th
MediCare program, and a number of officers represent the office of Depende Medical Care.

FT. JACKSON'S NEW "FIRST LADY," Mrs. Christian H. Clarke, ir., (fourth fr left) is introduced to guests by Mrs. Thomas R. Hannah, (third from left) Women Club president, and Mrs. William R. Woodward, (right) wife of the Deputy Commanding General of Ft. Jackson, at a reception tea sponsored by the local Women Club at the Legion Lake Officer's Club. Some 300 guests were on hand to welcome. Mrs. Clarke to her new home post.

treasurer. Mrs. Donald W. Severson is the representative for student officers' wives. Officers were elected for a oneyear term.

Honorary president is Mrs. Dwight O. Monteith, wife of the Mather command-

er.
Mrs. James Wroten was appointed as parliamentarian.
Outgoing president of the wives organization is Mrs. Paul E. Busse.

MRS. HENSLEY HEADS DIX WIVES
The Ft, Dix, N. J., Officers Wives' Club
has elected Mrs. Robert B. Hensley as
President, Mrs. Gordon Jones is 1st Vice-President; Mrs. David Hazard, 2d Vice-President; Mrs. William Hanna, Corre-sponding Secretary; Mrs. Herbert Smallwood, Recording Secretary, and Mrs. John Babbitt, Treasurer.

MRS. FAIKS LEAVENWORTH
PRESIDENT
The Women's Club of Ft. Leavenworth,
Kans., held an "Aloha" luncheon recently when Mrs. Lionel C. McGarr, Honorary President, presented the retiring
club President, Mrs. Mitchell Golden-

thal, with a silver serving dish.

thal, with a silver serving dish.

A Hawaiian program, directed by O and Mrs. Hewitt D, Adams of the Mrine Corps, concluded the luncheon.

Officers elected for the 1958-59 seas are: Mesdames Walter A. Faiks, Prodent; William H. Hubbard, Vice Prodent; William A. Boyson, Treasur Warren L. Taylor, Secretary; and Hoold D. Shrader, Assistant Secretary.

HONOR CMH

WINNER
Ft. Benning, Ga., dedicated its
Officer Candidate School Hall of
Fame 21 June to a Medal of Honor
winner, the late 2d Lt. Thomas W.

Wigle.

An alumnus of the school, he was awarded the Nation's highest hop-or posthumously for heroic action with the 34th Infantry Division

with the 34th Infantry Division near Monte Frassino, Italy, during WW II.

Before entering the Army he was a violinist with the Kansas City Symphony Orchestra.

Hanson Baldwin Compares U. S. And Soviet Power

A new book by Mr. Hanson W. Baldwin, distinguished Military Editor of the New York Times, was published 27 June by Frederick A. Praeger, Inc., 15 West 18th Street, New York, N. Y. Titled "The Great Arms Race," the 116 bage volume which sells for \$2.95, presents a detailed comparison of the strength of U. S. and Soviet military bower.

Mr. Baldwin analyzes with penetrating skill the impact of new weapons on military plans and strategies, but emphasizes that "the great weapons race which has that "the great weapons race which has dominated the first decade of the second half of the twentieth century is not confined to the Big Laboratories which produce the Big Bang. The Big Factories and the Big Battalions still have a reduced, but definite role."

It is no surprise to those who have followed Mr. Baldwin's authoritative results of the products of the products

followed Mr. Baldwin's authoritative reports on manpower and morale problems during recent years that he concludes his book with the assertion that "the last and fundamental line of defense of a country is its people."

He declares that "the basic problems of the armed forces today are the lack of any real motivation, the absence of self-discipline and the physical and moral 'softness' of many of the men who don the uniform."

Men, says Mr. Baldwin, "are the soul of battle; even in the age of missile and the conquest of space, Man, not the Machine, controls the Nation's destiny."

Hiller To Expand

The Hiller plant facilities are to have a 10,260 square foot addition to the 27,-680 sq. ft. of buildings leased from the a 10,260 square foot audition 680 sq. ft. of buildings leased from the Vela Corporation in the Kavanaugh Industrial Park, adjoining the Hiller plant on Willow Road in Palo Alto, Calif. Hiller officials stated that the additional space requirements result from rapidly accelerated production and development programs

It is a phase of the planned expansion of facilities at the Palo Alto helicopter plant, as well as at the company's Adhesive Engineering Division in San Carlos, and Hiller head of the plant of the pla and Hiller leased sites.

rines for permanent promotion to major and captain meets about 1 October. Wom-en officers in the ranks of captain and 1st lieutenant who attain four and three years service in grade as of 30 June 1959, respectively, will be considered. Service in grade is computed from the date of permanent rank.

Choose Chief Warrants

On 1 December 1958, a board will meet to recommend Regular officers for promo-tion to chief warrant ranks, W-4, W-3 and W-2. Chief warrants and warrants who will have completed at least six, six and three years service as of 31 December 1959, computed from dates of rank in pay-grades W-3, W-2 and W-1, will be considered.

Chief warrants and warrants who desire to call Headquarters' attention to any matter of record are invited to forward letters in time to reach the board not later than the date it convenes.

HONORED BY NAVY. LCdr. Nelson M. Cooke, USN-(Ret), right, accepts from RAdm. A. G. Maj. Gen. Jack Juhan **Ends 31-Year Career**

Maj. Gen. Jack P. Juhan, Assistant Base Commander, MCB Camp Pendleton, Calif., ended a 31-year career 27 June.

At his retirement, the General was honored with a parade and review of units from the Base and the 1st Marine

Division.

During his career, General Juhan,
USNA '37, participated in the Korean
fighting, three WWII battles and served
on expeditionary duty in Nicaragua and

China.

He is married to the former Mildred G. Gossett. They have one daughter,

formed on the East and West Coasts with squadrons located at NAS, Moffet and Miramar, Calif., NAS Oceana, Va., and NAS' Jacksonville and Key West, Fla.

Mission of the squadrons, which are being staffed by experienced pilots who will act as instructors, is to check out fledgling pilots in combat aircraft and Fleet tactics. As new flyers complete flight training, they will be sent to Replacement Air Groups before reporting to their permanent squadrons.

The Replacement Groups will instruct aviators in landing and take-off techniques from carriers, and train them in bombing, rocketry and gunnery in the types of planes they will fly in their operational squadrons.

See Six-Month Course

See Six-Month Course

The Navy has not yet determined how long this course of instruction will take, but estimates run from four to six

Second tour pilots reporting to carrier Air Groups will be given a short refresher

The Navy said this standardization of training is expected to increase the quality of Fleet pilots. Under the old system, each operational squadron "had to fit in the training of new pilots as best it could."

Use of the new system, it was said, will allow assignment of an air group to a carrier on a permanent basis as was the custom before WWII. The ship and air unit will always be deployed together.

A subsidiary benefit expected to result

is development of a team spirit which will enhance the morale of both ships and squadrons, the Navy said.

Results In Short Tours

Another change resulting from the permanent assignment of air groups to carriers will be a tendency toward shorter, more frequent deployments. At pres-

er, more frequent deployments. At present the air groups are deployed aboard carriers from eight to 10 months.

Time spent as an instructor in a Replacement Air Group will count as sea duty. The length of tour as instructor will be about two years.

The Navy said the length of tours with operational squadrons is expected to remain relatively unchanged from its present duration of four years for first tour ent duration of four years for first tour pilots and two years for split tour pilots.

Tours for commanding officers will be about one year.
Establishment of the new Replacement
Air Groups will have little effect on enlisted men. Tours of EM will continue
to be governed by SEAVEY.

Maj. Leba, USAR, Opens

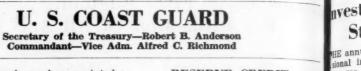

Journal Building Office
Maj. Theodore Leba, jr., CE, USAR, a
registered professional engineer, will
open an office in The Journal Building,
1710 Connecticut Avenue, N.W., Washington, on 1 July.
A veteran of WWII service in Alaska

and the Aleutians, Major Leba specializes in structural design and concrete and

masonry problems.

A graduate of Newark College of Engineering, with a Master's Degree from New York University, he also has taken special advanced courses at Purdue University. versity.

Major Leba is a Mobilization Designee assigned to a unit in the Office of the Chief of Army Engineers.

pay act through the Senate.

In the House, the Brooks Armed Services Subcommittee will launch hearings about the second week in July on legislation to establish a new term-retentioncontract system for active duty Reservists. Provided, that is, the plan clears the Budget Bureau before that time.

The House subcommittee took a look earlier this year at a new Reserve con-tract plan developed by the Pentagon but decided it needed some further work and sent it back to the Defense Depart-

The subcommittee, on 23 June, asked for a progress report on the proposal and was advised by the Pentagon that, after "16 drafts," new legislation has been perfected and sent to the Budget Bureau for final clearance. A Defense Department spokesman said the new draft provides greater equity for Reservists and more consideration for the valuable contributions they make. He said he expects the plan to clear the Budget Bureau "within the next two weeks."

A House Armed Services Committee spokesman told The Journal that that group also will take up the "White Charger" bill if it is passed by the Senate before the Congressional session ends.

The White Charger plan went to the Capitol on 1 April. It authorizes stiffer involuntary retirement rules for thousands of officers who have completed at least 20 years' service. And, for the Army and Air Force, it increases below-the-zone promotions, puts promotions to perma-nent grades above captain on a "best qualified" basis, and establishes a 20 per cent pass-over rate the first time officers are considered for promotion to all permanent grades above captain.

For the Navy and Marine Corps, the legislation provides authority to force an unlimited number of colonels-captains, lieutenant colonels-commanders to involuntarily retire during the next seven

Senator Stennis has expressed deep interest in the plan and there is little possibility that he will let the session end without digging into it. Whether he will be able to complete hearcomplete hear-ings and win Senate approval for the legisla-tion in time for

Rep. Brooks

House consideration in the few remaining weeks questionable. The House subcommitte under Representative Overton Brooks (D-La.) faces a similar problem with respect to the term contract pro-

posal. Although details of the revised term retention contract plan have not been disclosed by the Pentagon, The Journal previously published (15 Feb.) some of the possible changes which were under

One such change, if it has been accepted by the Pentagon, would make it mandatory for the Services to give contracts to all active-duty Reserve officers. As originally drafted by the Defense Department, the plan would have provided contracts only for "selected" Reservists. Another possibility is that the Pentagon would agree to pay for all broken con-

As originally proposed, the plan would have established new, higher "force-out" pay rates for RIF'd Reservists. This, too, may have undergone some change in the revision, inasmuch as the new military pay act automatically increases the amount of RIF pay which will go to Reservists in the future,

facilities, including bowling alleys, night clubs, etc., which are not alone patronized by Service personnel and their families, but private citizens within these areas also benefit from these operations to the detriment of independent business

in the respective areas."

Representative. Abraham J. Multer
(D-NY), Chairman of a House Small Business Subcommittee, said his committee has been investigating the problem since last year and "public hearings will be announced as soon as the preliminary investigations are completed."

Sperry Gets \$27,000,000 For Missile Radar Gear

The Navy on 18 June awarded two contracts to Sperry Gyroscope Company, a division of Sperry Rand Corp., Great Neck, L. I.

The largest contract, in the amount of \$19,000,000, is for production of radar sets AN/SPG-55, special field test equipment and related spare parts for use aboard Terrier guided missile ships.

The second contract, for nearly \$8,000,000, is for manufacture of long lead-time items for radar sets AN/SPG-56, which are used in connection with the Talos missile program.

a message to all Naval activities, he vised commanding officers that not ore than 25% of the men in a rate ould be recommended to compete in proficiency exams.

Exceptions to the 25% rule, however, be made when:

The command has been assigned pernnel in a rating or ratings who have en chosen for unique proficiency and ial training, and

• The command has fewer than four officers of a particular rate on

The first proficiency pay awards will made to men in pay grades E-4, E-5 d E-6 based on results of the February 58 promotion tests.

The first increment of E-7's to win ineased pay will be from among those to compete in the August 1958 exam-

Examinations will be given in Novemr 1958 for proficiency in pay grades 4, E-5 and E-6 in all ratings.

Starting in 1959 annual examinations rproficiency increases will be conduct-

in November. E-7's who compete for proficiency pay August are required to have a mini-

m of one year in grade. Men who compete for the pay hikes as 6's must have a year in grade, while 4's and E-5's need six months in grade.

lilitary Construction Gets \$1.7 Billion O.K.

The House Armed Services Committee s approved the Authorization Bill for cal '59 military construction at bases roughout the world. The authorization measure totals \$1.7 llion of which \$332 million goes to the my, \$319 million to the Navy and Mark Corps. \$957 million to the Navy Force.

ne Corps, \$957 million to the Air Folded \$50 million to the Advance Research rojects Agency. Also \$64.4 million in ficiency authorizations for all three rvices and \$39.9 million for the Reve components.
Included in the measure is authority

the construction of 935 new family using units with appropriated funds. I the total, 777 are slated for the Air orce, and 158 for the Army.

estinghouse Plans New Bomarc Guidance

An advanced ground control system for he Air Force Bomarc missile will be veloped by the Westinghouse Electric orp., Baltimore, Md., under a \$10 million contract from the Boeing Airplane ompany, the missile's prime contractor. Advancements to be included in the w system include longer range control, nomatic radar tracking, the ability to rade" information automatically with her Bomarc guidance centers, reduced resonnel requirements and size, and the billy to track more targets simultane-

Army-AF Statement On PX Concessions Stresses Direct Contact, Urges "Neutrality"

The Army and Air Force have warned commanders and exchange officers not to assist in preparation or distribution of any lists or take other action that could be construed as promoting membership in a newly organized Association of Military Concessionaires and Suppliers.

The policy statement, set forth in AFL 147-17 and DA Circular No. 60-16, notes that the Association has been making "an increasing number of requests" for lists of names and addresses of exchange con-

The Army and Air Force gave the following summary policies on this matter:

"a, Army and Air Force Exchange Service neither promotes nor discourages the formation or operation of any association of private individuals."

private individuals.

"b. Army and Air Force Exchange Service deals directly with the individual concessionaires and suppliers and others with whom it has business relationships in an open, fair and equitable manner and consider views any may express in the formulation or evaluation of Army and Air Force Exchange Service policy. However, Army and Air Force Exchange Service, as a Government instrumentality, cannot permit any private association or its representatives to participate directly in the making of Army and Air Force

Exchange Service policy decision.

"c. Army and Air Force Exchange Service has no basis for recognizing any organization (or its representatives, regardless of background) as the official spokesman for concessionaires or suppliers as a group. In keeping with Army and Air Force Exchange Service policy of strict neutrality on the question of association membership, each concessionaire, supplier, or other individual must determine for himself whether his real interests will be furthered by joining any organization."

The Army and Air Force said that: furnishing the type of information requested could be misconstrued to indicate that the exchange impliedly recognizes and indorses the organization concerned and favors membership thereconcerned and favors membership therein. In keeping with the policy of strict neutrality, therefore, installation commanders and exchange officers will not assist in the preparation or distribution of any such lists of take any other action that could be construed as promoting membership. On the other hand, and subject restrictions as may be generally applicable on an installation for security or other purposes no objections should or other purposes, no objections should be interposed to any organization or its representatives making direct contact with concessionaires and suppliers.

"Rocky Shoals" Posts Told By Gen. Palmer

The Joint Army-Navy Amphibious Exercise "Rocky Shoals," with Lt. Gen. Charles D. Palmer, USA, Director, will have VAdm. John Sylvester, USN, as Commander, Joint Amphibious Task Force and Maj. Gen. Robert L. Howze, jr., USA, as Exercise Controller. "Rocky Shoals," employing 13,000 troops, will be the largest joint Army-Navy amphibious exercise to be held in the Continental United States since WW II, Scheduled for November, the assault

the Continental United States since WW II. Scheduled for November, the assault troop will land and the task force will seize a lodgment on the California coast after a major over-water movement.

As commander of the Joint Amphibious Task Force, Admiral Sylvester will direct the amphibious phase of the operation. He will be in command of the forces involved in the amphibious assault.

General Howze will control the play of the maneuver as Exercise Controller. He will have under his command the Umpire

the maneuver as Exercise Controller. He will have under his command the Umpire Group and the "Aggressor Forces" which will oppose the landing.

Admiral Sylvester is Commander Amphibious Force, U. S. Pacific Fleet.

General Howze is Sixth U. S. Army Deputy Commander for Reserve Forces.

Air Flight Control System Is Unveiled

A completely self-contained airborne navigational system which may set the pattern for future air control developments was unveiled in Washington, D. C., 24 June.

Called HIDAN (High Density Air Navigation), the system provides a constant picture of where a plane is in relation to where it should be at all times. Its completely self-contained equipment also provides accurate measurements of both

true ground speed and wind drift.
HIDAN manufacturers, the General
Precision Equipment Corporation of New Precision Equipment Corporation of New York, say that the new system will both simplify the problem of air traffic control and reduce the hazard of mid-air collisions. They say that because the system can predict arrival times with extreme accuracy, flight control scheduling with HIDAN will eliminate stacking and scheduling problems at congested air-norts.

In addition, GPE officials say, the sys-tem's precise monitoring of an airplane's position will allow many more planes to use available airlanes with complete

Heart of the HIDAN system is an automatic navigator called RADAN, which supplies continuous ground speed and drift angle. In use by the Air Force since 1948, the RADAN equipment has a ground speed accuracy within three-tenths of one per-cent and a drift measurement accuracy within one-tenth of a degree.

Obituaries

VAdm. Robert Lee Ghormley, USN-Ret. Burial services were held at Arlington

National Cemetery 25 June for VAdm. Robert Lee Ghormley, USN-Ret., who died at the U. S. Naval Hospital, Bethes-

died at the U. S. Naval Hospital, Bethesda, Md., 21 June at the age of 74.

A native of Portland, Ore., Admiral Ghormley was a graduate of the University of Idaho, where he was elected to Phi Beta Kappa, before entering the U. S. Naval Academy, from which he was graduated in 1906. In 1917, he was assigned as flag lieutenant of Battleship Force One and later served in the Office of the Chief of Naval Operations. receiving outstanding recogni-

served in the Office of the Chief of Naval Operations, receiving outstanding recognition for his WWI service.

In June 1942, Admiral Ghormley took command of Allied Naval Forces in the South Pacific at the time Australia was still in imminent danger from the Japanese. It was under his command that the first American offensive action of the war was launched, the assault on the Solomons, In October 1942, Admiral Ghormley was replaced by Adm, William F, Halsey, jr., and returned to the Washington headquarters of the Commander-in-Chief of the U. S. Fleet, Later, during WWII, Admiral Ghormley commanded the Hawalian Sea Frontier and the U. S. Naval Forces in Germany.

ed the Hawaiian Sea Frontier and the U. S. Naval Forces in Germany.

He is survived by his widow, Mrs. Lucile Ghormley of 3305 Macomb St., N.W., Washington, D. C.; two sons, Mr. Daniel D. Ghormley, Pacific Palisades, Calif., and Lt. R. L. Ghormley, Jr., USN, Washington; one daughter, Mrs. W. C. F. Richards, St. Julians Creek Ammunition Depot, Va.; three brothers, Mr. Alfred Ghormley, Mr. Kenneth Ghormley and Dr. Ralph C. Ghormley; and two sisters, Miss Margaret Ghormley and Mrs. Sarah Murray.

Cadet Robert H. Van Volkenburgh, 3d, USMA

Funeral services were held 20 June at the Ft. Myer, Va. Chapel for Cadet Robert H. Van Volkenburgh, 3d, USMA, 19, who sustained fatal injuries in an automobile accident near Mannheim, Germany 10 June. Burial was at Arlington National

June. Burial was at Arlington National Cemetery.

Born at Ft. Benning, Ga., the son of Col. (USA) and Mrs. Van Volkenburgh, jr., Cadet Van Volkenburgh attended schools at Ft. Leavenworth, Kans., Tokyo, Japan, Ft. Sill, Okla., Christ School, Asheville, N. C., and at the University of Maryland's Munich, Cermany, branch, before entering the U.S. Germany branch, before entering the U. S Military Academy, where he had recently completed his first year, Cadet Van Volken-burgh had excelled in all sports and was particularly outstanding as a swimmer and

particularly outstanding as a swimmer and soccer player.

He is survived, in addition to his parents, by two sisters, Jesse and Elizabeth Van Volkenburgh; one brother, John Van Volkenburgh; and his grandparents, Brig. Gen. (USA-Ret.) and Mrs. Van Volkenburgh, sr., of 33 Escondido Ave., San Francisco, and Maj. Gen. (USA-Ret.) and Mrs. Albert E. Brown of 5 Browntown Rd., Asheville, N. C.

Maj. Gen. Kenzie Wallace Walker, USA-Ret.

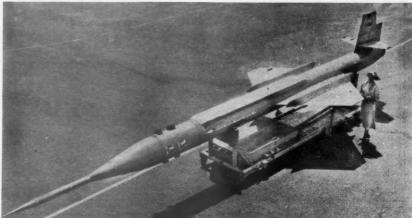

Burial services were held recently at Arlington National Cemetery for Maj. Gen. Kenzie Wallace Walker, USA-Ret., who died 18 June at St. Petersburg, Fla., where he had made his home since 1945. where he had made his home since 1945. General Walker, who was graduated from the U. S. Military Academy in 1893, was commissioned a 2d lieutenant of Cavalry. In his 35 years of active service, he saw action in the Cuban campaign, the Philippine Insurrection, the Cuban Pacification and the Vera Cruz Expeditionary Force, Named Chief of Finance and Budget Officer in 1922, Centeral Walker served in that capacity un-General Walker served in that capacity un-til his retirement from active duty in 1928 til his retirement from active duty in 1928.

He is survived by one daughter, Mrs.
Dorothy W. Everett of 2962 2d Ave., No., St.
Petersburg; and two granddaughters, Mrs.
Kenneth Bohman of Gainesville, Fla., and
Miss Caroline W. Everett of New York City.

O.K. Retirement Benefits For Korean Veterans

Reservists with Korean war service will receive the same retirement privileges as those who served in WWI and WWII, under the terms of a bill (HR 781) approved on 24 June by the House Services Committee.

The Pentagon said about 200 officers whose appointments are dated before 16 August 1945 will be affected by the leg-

SLEEK "BIRD" and chic engineer are the new Lockheed X-7 ramjet-powered test missile and Florine Cain, who helped design the supersonic vehicle and one of the few women in this highly technical field. The new 37-foot-long X-7, completed and delivered to the Air Force a month ahead of schedule, was developed to test the latest huge and power ramjet engines that will propel the Air Force's advanced interceptor missiles. The missile, capable of either ground or air launch, was built at Lockheed's Van Nuys plant. It is the newest member of the Lockheed X-7 family which holds both speed and altitude records for U. S. air-breathing missiles.

Col. Drum, USA-Ret., Named Willys Mgr.; Others Keep Busy After Service Careers

Col. James H. Drum, USA-Ret., USMA '37, Washington Military Representative for Willys Motors, Inc., since 1957, has been named Manager of the firm's govbeen named Manager of the firm's government sales office in Washington. During WW. II he served as Commander of the 2d Battalion, 334th Infantry Regiment, 84th Division in the European Theater. Wounded in 1944, he retired from the Army in 1946. Pentagon Seeks Answers To Pay Problem

From first page—
of the Military Pay Act of 1958 when
they sign up for another tour after 1
June 1958.

This is revealed by top Pentagon officials charged with implementing the law. They also note that many National Guardsmen and Reservists may not be entitled to the "saved pay" provisions as the Act is now worded. Further questions have arisen as to

what types of enlisted service will qualify officers in the three lowest grades to the new higher rate tables based on prior enlisted service. Until a final Comptroller decision is

obtained, none of the Services will apply the "saved pay" clause to reenlisting per-sonnel, or pay higher rates to officers in the three lowest grades whose enlisted service may not be creditable under the

Unlike the Career Compensation Act of 1949, the new pay law does not specifically provide a "saved pay" plan for immediate reenlistments or reenlistments within three months after discharge.

It states merely that the new plan "shall not operate to reduce the basic pay or retired pay to which a member or former member of the Uniformed Service was entitled on the day before the effective date of the Act."

Thus, enlisted members of all Services who were entitled to higher pay rates under the old plan than provided in the present act may receive the higher rates only as long as they continue the same enlistment they were on as of 31 May

If they reenlist after that date,

could suffer a pay loss.

Reservists not on active duty active duty for training on 31 May in a similar position, Although Penta authorities say it is unlikely, they the possibility of some Reservists gett the benefit of the "saved pay" cla while others in the same status are prived of it.

The Pentagon experts say it is po that Reservists on active duty titled to pay for drills attended on May could receive the "saved pay" by while all others might be depr of them.

It is noted that "it is inconceival that Congress intended to provide in pay increases for some Reservists a reduction for others.

Enlisted service in any of the Mill Departments which may not count part of the "over four years active sice as an enlisted member" to qui lower three grade officers for higher includes:

Active duty for training.
Active service in a dual status
the Navy or Marine Corps as a status porary officer and permanent enl

Active service as an aviation of prior to 4 August 1942, or in a status as aviation cadet and enlish man prior to that date.

Service in any dual status as a porary officer and permanent enlist or as a member of a Service Acade and an enlisted man.

Two-State Honors For Lieutenant Pope

North Carolina and Indiana citizens net 14 June to honor the late Lt. Harley H. Pope, USA, whose name has been commemorated since 1919 at Pope AFB, N. C.

Citizens of Fayetteville, N. C., near the Air Force facility, flew to Lieutenant Pope's home town of Bedford, Ind., to unveil a new portrait of the early flyer. The following day citizens from both towns installed the painting in the Pope AFB Officers' Club.

Lieutenant Pope died in an airplane crash near Fayetteville 7 January 1919, at the age of 39.

Rover Reactor Set For Tests Before Year's End

First reactor designed for nuclear rocket propulsion will be ground-tested by the Air Force and Atomic Energy Commission late this year, according to Maj. Gen. D. J. Keirn, USAF.

The Chief of the Joint AEC-USAF Office for Air Nuclear Propulsion told the House of Representatives Select Committee on Astronautics and Space Exploration that the aim of the nuclear rocket propulsion program, called "Project Rover," is to develop boost systems capable of lifting large payloads free of the earth's atmosphere and gravitational field.

General Keirn noted that even when nuclear rockets are developed, there will be a continuing requirement for chemical rocket systems.

Conventional Weapons Take Second Place In BuOrd Budget; New Developments Told

New type weapons, including guided missiles, nuclear weapons and their supporting costs, have completely displaced conventional weapons to take the lion's share of the Navy Ordnance dollar.

28 June 1958 (Vol. 95, P. 1297)

This is revealed in a Navy Bureau of Ordnance report, "Weapons for the United States Navy," dated 1 July 1958.

Comparing ordnance expenditures in Fiscal Years 1954 and 1958, the report

shows that the amount spent by the Bu-reau of Ordnance to develop and main-tair new-type weapons has risen from 22 per cent to 63 per cent of its budget dur-ing the period involved. During the coming fiscal year new weapons are expected to take 69 per cent of the BuOrd budget.

Some of the immediate results of this concentration on modern weapons are

the startling progress in development of the Polaris Fleet Ballistic Missile and the Talos long-range surface-to-air guided missile, scheduled to join the fleet early

next year.

In the near future the Navy plans to unveil other startling new weapons sys-tems, including lightweight Picket Boat Depth Charges for use against small sneak craft, an adaptation of the existing High Altitude Sounding Projectile for meteorological observations to extend its range to over 300,000 feet, and

new anti-submarine torpedoes, in addition to radical improvements on existing weapons.

Central point in the Navy's development and maintenance of new weapons, the Bureau of Ordnance is commanded by RAdm. F. S. Withington. During the last year his organization contracted more than \$400 million to private industry, over and above the manufacturing and maintenance activities carried on in its own facilities. its own facilities.

With headquarters in Washington, D. C., BuOrd employs more than 52,000 persons, military and civilian. Its 90 field activities range in size from less than an acre to more than 2,000 square miles.

The major share of the BuOrd budget is allotted to procurement and production. Of this 78.2 per cent is allotted to private industry, while 21.8 per cent is spent at Naval Ordnance industrial facilities.

Second most costly activity of the Bureau is Research and Development, which takes up 18.5 per cent of the ordnance dollar. Slightly over half of Navy R&D is performed by private industry. Maintenance and operation costs take up the remaining 15.7 per cent of the ordnance

USMC Seeks Bids For Fuel Tanks: Needs Scores Of Items; \$50 Million Open

The Marine Corps' Procurement Section has just opened bids for production of 13 bulk fuel tank systems.

The successful bidder is expected to receive an award of about \$4.5 million, a Marine Corps official estimates.

The Marine Corps has been experimenting with the bulk fuel tank system

for a number of years, Development of the system is the outgrowth of adoption of the "vertical envelopment" doctrine of waging war. Use of large numbers of helicopters and support aircraft dictated

the need for large quantities of aviation fuel to be brought into combat areas.

The bulk fuel tank system is the Marine Corps answer to the monumental task of keeping the 'copters and planes airborne. Once assault troops secure a backback force Treen bulldgray will. airborne. Once assault troops secure a beachhead, Force Troop bulldozers will scoop out large holes in the earth. Collapsible tanks will be placed into the craters and fuel will be pumped ashore from tanker ships. The Corps envisions smaller tanks being placed at strategic points from which aviation fuel can be "farmed out" to sub-stations.

Major Contracts Open
The Corps' Supply Section, which
makes about \$50 million worth of direct purchases annually, also has opened bids for a wide variety of goods and services. Among the major contracts to be awarded in the near future is for delivery

of milk to East Coast Marine bases. This contract will be for approximately \$2.4 million.

A contract of about \$1 million soon will be let for home furnishings for Capewill be let for home furnishings for Capehart Housing under construction at the recently activated Marine Corps Auxiliary Air Station, Beaufort, S. C. The contract will include purchase of standard items of home furnishings, such as, beds, chairs, tables and lamps.

chairs, tables and lamps.

Another major contract to be settled is for electrical power in the Norfolk, Cherry Point and Beaufort areas.

A contract was recently awarded for tailoring services at MCB Camp Lejeune, N. C. The award was for approximately \$90,000 for alteration of issue uniform items on a piece work basis.

From Matches To Trailers
The Corps' Supply Section opens bids at the rate of three to four each day. Bid submissions cover a wide range of prod-uct and service areas—from matches to trailers.

For example, bids are currently open for the following items: sweatshirts, sweat pants, football shoulder pads, football pants and jerseys, baseball shoes, ice

cream cans, air conditioning units, bulletin boards, paint sprayers, fire extinguishers, water purification tablets, electric motors, steel stretchers, centrifugal fans, sewing machines, torque wrenches, voltage regulators, needles, outboard motors, battery chargers, house trailers (for use as mobile recruiting offices), vacuum cleaners and coffee tables.

Potential bidders for any of the listed items can receive past bid records and complete specifications from the Procurement Section, Supply Department, Headquarters Marine Corps, Arlington Annex, Va. The Section, headed by Mr. J. W. McLain, is located in Room 4003. Mr. McLain's assistant is Mr. J. F. Maguire.

Maguire.

The scope of the Sections activity is pointed up in a review of its workload in Fiscal Year 1957. During the period, 73,372 separate transactions were com-

He will be succeeded by Col. Frederick R. Terrell, Commander of the 34th Air Division at Kirtland AFB, N. M.

Before joining the Air Force at London in September 1942, Colonel McColpin was a Squadron Leader (Major) in the Royal

a Squadron Leader (Major) in the Royal Air Force, where he won the British DFC.

INDUSTRY IN DEFENSE

RESEARCH RESPONSIBILITIES—Controlling and allocating Air Force research and development funds with the increased importance in these areas were the subjects of the Air Research and Development Command's Comptroller Conference recently held at Andrews AFB, Md. Directing the executive program during the conference were, left to right, Col. W. A. Sundell, Director of Accounting & Fina Hq. USAF; Mr. Stanley A. McKay, Deputy Comptroller, Hq. ARDC; Brig. Gen. Richard L. Scott, Comptroller, Hq. ARDC; Mr. L. C. Meyer and Col. J. P. Dufour, Systems and Procedures Group, Comptroller of the AF, Hq. USAF.

Chamber Of Commerce Urges Airlift Use

The U.S. Chamber of Commerce has urged Congress to enforce its 1957 directive to the Department of Defense to make greater use of commercial airlines for international transport of military

The Chamber said the directive, ordering MATS to double its use of commering MAIS to double its use of commercial airlines for overseas traffic, "would not only strengthen the airlines, but produce a more effective mobilization-day airlift potential for the military

Chamber spokesman John R. Stalev. Vice President, Quaker Oats Co., Chicago, said "the air industry has advised the Chamber that use of the airlines by MATS actually has decreased since the

directive was issued."

Mr. Staley's statements were contained

Mr. Staley's statements were contained in testimony prepared for a special subcommittee of the Senate Interstate and Foreign Commerce Committee.

"Non-compliance with the directive," Mr. Staley said, "will cost our civil international air carriers \$18 million this fiscal year. This is revenue they could well use in strengthening their equipment modernization program—a program. ment modernization program—a program that should be of prime interest to the Department of Defense."

Mr. Staley noted that MATS makes full use of the airlines for domestic traffic. He asked Congress to require the Defense Department to adopt a consistent policy for international traffic.

Industry Stars On AMF Consolidates Dyna-Soar Teams

The Air Force has named the Boeing Airplane Company and The Martin Com-pany to lead industry teams in development of Dyna-Soar vehicles (THE JOURNAL 21 June).

The members of the Boeing group are: Aerojet-General Corporation

Chance Vought Aircraft Incorporated Missile Division, North American Avia-

tion, Inc.
Rame-Wooldridge Corporation
General Electric Company
Autonetics of North American Aviation,

Firms joining with The Martin Company in the important project are:

Bell Aircraft Corporation American Machine & Foundry Co. Bendix Aviation Corporation Goodyear Aircraft Corporation Minneapolis-Honeywell Regulator Co.

The Dyna-Soar project is aimed at development of advanced boost-glide air-

Military Divisions

Y., will continue to provide technical support to AMF engineering divisions and manufacturing plants. facturing plants.

facturing plants.

Manufacturing plants included in the new Government Products Groups are located at Buffalo and Rochester, N. Y., Chicago, and Pomona, Calif.

AMERICA'S FIRST TWIN-PROPJET AIRLINER, the Fairchild F-27 was delivered to West Coast Airlines at a dedication ceremony at Hagerstown, Md. The high-wing, 40-passenger F-27 will this Summer be the first U. S.-manufactured jetliner wing, 40-passenger F-27 will this Simmer be the first U. S.-manufactured jettiner to be placed in scheduled airline service. A total of 15 airlines in the Americas will soon fly the luxurious new Jet Age aircraft now in volume production at the Fairchild Aircraft Division. The F-27 will soon be demonstrated to the Armed Forces where there is interest in its possible use for light cargo and personnel, as well as for Navigational and other training, photo charting, etc.

AMC Forms Electronics Support Division ation

An Electronic Support Systems (ESS PO) Division has been established by the Air Materiel Command to supervise the management and integration of electronic systems into the Air Force inventory.

Lt. Col. O. C. Mauldin heads the new

division.
Established within the Directorate of Procurement and Production at Wright-Patterson AFB, Ohio, Colonel Mauldin's unit will work jointly with a similar Air Research and Development Com-

mand division on the systems.

It will not be responsible for procure ment, but will deal with phasing the systems. ment, but will deal with phasing the syntems into service, monitoring their compatibility, and rooting out production supply and maintenance problems. The systems will continue to be purchased by the Rome Air Force Depot, New York.

Division personnel will monitor the

Division personnel will monitor the SAGE, Distant Early Warning, White Alice and Ballistic Missile Early Warning lines.

Gen. Dreyfus Gets JCS Electronics Post, Other Logistic Shifts In The Services

Maj. Gen. James Dreyfus, USA, becomes Deputy Director for Communications Electronics of the Joint Staff of the Joint Chiefs of Staff in the Pentagon 18 August. Brig. Gen. Herbert L. Scofield, USA, will succeed General Dreyfus as Chief of the Procurement and Distribution Divi-sion in the Office of the Chief Signal

Col. Walter A. Huntsberry, USA, former Sharpe General Depot Commander, Lathrop, Calif., is the new Chief of the Oversea Supply Agency, Brooklyn Army Terminal, N. Y.

Col. Fred Bell, USAF, Deputy Commander of Kelly AFB, Tex., has been named Deputy Director for Maintenance Engineering at Air Materiel Command He will report to his new position at Wright-Patterson AFB, Ohio, 1 August

Maj. Gen. Thetus C. Odom, Kelly Con mander, said Brig. Gen. Lewis L. Mundel will return to Kelly 1 September as Deputy Commander, the position he held when he left in July 1955 to become AMC Inspector General. He presently is as-signed as commander of the Southern Air Materiel Area, Europe.

New In Service

High energy boron fuels are being produced for the Air Force by AFN, Inc., at the Henderson, Nev., plant of the American Potash and Chemical Corp. The plant will concentrate on large-scale production techniques for the new fuels.

Improved, wheeled amphibians in the Improved, wheeled amphibians in the 5- and 15-ton payload capacities are being developed for the Army under a \$380,862 contract with the Ingersoll Kalamazoo Division of the Borg-Warner Corporation, Kalamazoo, Mich. The four-wheel drive vehicles will replace the two-and-a-half ton capacity WWII DUKW's. Prototypes will be delivered next summer.

Solar Jupiter 500 hp gas turbine engines will be installed for mobile use on carriers to supply compressed air for starting jet engines, pre-flight air conditioning for instruments and pre-flight electricity.

Missile tracking at the Air Force Missile Test Center, Fla., will be aided by the first microwave system successfully in-stalled for a military agency completely over water, Motorola, Inc., reports. The system, operating on 7,125-8,000 mc band, covers a total of 80 miles in the Bahama Islands, connecting three missile track-

Jeep Mounted single sideband communications systems, manufactured by the Collins Radio Company, Cedar Rap-ids, Iowa, are being tested by the Marine Corps Development Center, Quantico, Va. Another version of this Collins radio is an integral part of SAC's new global communications network.

Igor Mark III, claimed to be the na-tion's newest and most advanced missile tracking instrument, is now tracking the performances of ballistic missiles and satellites at Cape Canaveral, Fla., and White Sands, N. Mex. It takes high-speed, fine-detail, long-range motion pictures of the missiles and other airborne objects. It is manufactured by J. W. Fecker, Inc., Pittsburgh.

Metal Testing will be made easier with a new "Auto-Dynamic Elevated Temperature Test Machine" built by the Marquardt Aircraft Co., Van Nuys, Calif. The multi-purpose tool can automatically perform a variety of physical property tests on metallic materials at temperatures to 3,000 degrees farenheit.

Miniature Servo Motors are being developed by Dynamic Instrument Corp., Westbury, L. I., with the help of the Navy Bureau of Ordnance. The com-pany predicted that its newly-designed motors can be manufactured in sizes down to .3 inch diameter.

MISSILE MAN. The Army Quarternas ter Corps has developed this suit to pretect missile-servicing crews against the highly corrosive chemicals they must handle. It employs the newly standarized Army Chemical Corps M-15 mask. preathing apparatus which feeds one pressed air from a pair of small tanks carried on the back. The basic material of the suit is a coating of resin-modified butyl rubber over a cotton fabric base. It is impervious to liquid oxygen, hydrogen peroxide, red furning nitric acid, and other missile fuels.

diversified organization, the Nation-Security Industrial Association is ongly backing other revisions in med Forces procurement policies. It been a leader in the fight to obtain ity in Government contract process for big and small business alike.

pecial object of the Association's pro-s are excessive reimbursement and unting restrictions proposed for Sec-

tion XV of the Armed Forces Procurement regulations, which the Association says may drive many small industries out of Government business.

There are some indications that the Defense Department has modified these proposed regulations to conform more closely to the Association's views. Further action may be expected at a meeting of Association and Defense Department officials on the subject in the very near future.

Many other programs, covering all aspects of industrial contributions to the Armed Forces, are carried on continually to enable defense and industrial leaders to exchange viewpoints on mutual prob-

Aid Missile Effort

Newest of these programs, begun at the request of Defense Department Guided Missiles Director William A. Holaday, will be a regular series of missile conferences to propose simplified missile procurement procedures, develop training texts for both the military and industry, and encourage technical information interchanges.

In many past programs the Associa-tion and its individual members have been credited by the nation's top defense leaders with invaluable and money-saving contributions to vital programs.

Some of these projects have resulted in the design of missile components and other hardware, development of time-and money-saving production techniques and the accelerated delivery of vital weapons to the Armed Forces

One NSIA study, prepared in 1955 at the request of the Army Corps of Engineers, provided a complete survey of the nation's lumber storage capacity. Freely donated, the cost of this study would have been many thousands of dollars if executed by a commercial organization.

The National Security Industrial Asociation, now comprised of more 525 corporations doing business with the Government, was begun in 1944 as the Navy Industrial Association at the urging of the late James Forrestal, then Secretary of the Navy. After Unification, it was expanded in 1949 to cover all Services under its present title of National Security Industrial Association, again at the urging of Mr. Forrestal.

Basic Aim: Cooperation

Basic aim of the Association is to per-petuate industry-military cooperation. It does this in three basic ways: A commitdoes this in three basic ways: A commit-tee program provides for a mutual ex-change of information and assistance between the Military Departments and industry; a special activities program is centered on having both industry and military leaders visit each other at their respective facilities to promote a mutual understanding of problems and accomplishments.

By means of a vigorous information program, including bulletins and printed studies, a wide variety of data is dissemi-

Printed reports of NSIA Symposia and special studies undertaken by the Association provide a ready reference to some of the most important aspects of the U. S. military effort. These reports, covering many thousands of pages, deal with varied topics.

In addition to its weightier studies, the Association publishes a monthly newsletter to keep members abreast of the latest developments affecting the country's industrial-military program.

Overall supervision of the NSIA program is under Executive Director Capt. Robert N. McFarlane, USN-Ret., former Assistant Chief of the Office of Naval Intelligence, and his 22-man headquarters staff at 1107 19th St. N. W., Washington D. C.

ington, D. C.
Other key headquarters members include: H. P. Newson, Deputy Director; RAdm. James D. Boyle, USN-Ret., Director of Committees and former Navy

Assistant Chief of Materiel for Procurement; Brig. Gen. Joseph A. Cranston, USA-Ret., Special Activities Director; and Public Information Director Joe Rogers.

Association Officers

President of NSIA is Richard C. Palmer, Assistant to the President of Fair-child Airplane and Engine Corporation. N. B. McLean, President of the Edo Corporation, is Chairman of the Board of Trustees. Robert C. Simmons, Vice-Pres-ident of the Johns-Manville Sales Corporation, is Chairman of the Executive Committee

Official Military Liaison Officers to the Association include: Brig. Gen. Jean Engler, USA; RAdm. R. L. Swart, USN; and Maj. Gen. M. E. Bradley, USAF.

SAC's 2D JUPITER UNIT ACTIVATED AT ARMY CENTER

The Strategic Air Command's second Jupiter Missile Squadron has been ac-tivated at the Army Ordnance Missile Command, Redstone Arsenal, Ala.

The new 700-man Air Force unit is designated as the 865th Strategic Missile Squadron (Jupiter).

The first Jupiter squadron, the 864th, January. It is expected to complete its training by the end of this year, and to be deployed to an operational location, as yet unannounced.

Commander of the 865th is Col. Glenn B. Daughton. He comes to Redstone from Cooke AFB, Calif., where he served as Operations and Training Officer of the 704th Strategic Missile Wing. Deputy Commander is Lt. Col. John Eigenmann.

Army Navy Air Force Journal 28 June 1958 (Vol. 95, P. 1299)

RAM JET COPTER-Capt. Joseph Pflugler, right, explains the controls of a Hiller Hornet helicopter to Col. William M. Brown of Knoxville, Tenn., Lawson Army Airfield commander, at Ft. Benning's Lawson Air Show celebrating the ning's Lawson Air Snow celebrating the 16th anniversary of Army Aviation. Capt. Pflugler flew the Hiller Hornet, the Army's experimental ram-jet helicopter, during the show.

A Pay Raise Investment

The start of Fiscal Year 1959 finds thousands of career military personnel receiving increased pay.

The Journal is proud of the role we played in bringing the critical pay problem to the attention of the Nation.

When many other publications despaired of chances for the legislation, we insisted on continued complete coverage, maintaining that the merits of the case would result in Congressional action.

Many military men will want to take the opportunity to assure that they obtain the professional information essential for their careers and the safeguarding of family welfare by using a small part of the pay raice to start a subscription to The Journal.

Attention is called to the fact that as much as \$9.50 can be saved by an extended subscription, as shown below.

Army Navy Air Force Journal 1710 Connecticut Avenue, N.W. Washington 9, D. C.

Please enter my subscription for the next 52 weekly issues with the understanding that I can cancel this order at any time and get a full refund of any unused part of my subscription payment.

AT DOD GET-TO-GETHER. Greeting Vice President Nixon at the Quantico air field are Lt. Gen. Merrill Twining, USMC, left, and Secre-tary of Defense Nell McElroy.

Was It Just A Slip Of The Tongue Or More Than That On Thor-Jupiter?

QUANTICO, VA SECRETARY of Defense McElroy has declared that he "would cer-tainly expect" to make a decision before the end of the calendar year be-tween production of the Douglas Thor and Chrysler Jupiter IRBM's.

That is what he told newsmen who were covering the annual Secretaries

Conference here.
The Secretary was stressing the need for weapons decisions in view

of the rising costs of parallel systems.
Mr. McElroy was asked specifically
if the decision on the Thor and Jupiter

would be "between one or the other."
The Secretary's reply: "Yes, sure."
A newsman then wanted to know if the decision would or would not preclude the production and deploy-ment of Jupiter, which has been an-

Then came this answer:

"Oh, no. There would be some limited deployment of Jupiters." The Secretary quickly added that "I am not saying which one it is going to be.

A report said that would have been his next question.

Commented Secretary McElroy: "Well, I really don't know because my position has been and has consistently been I am not going to bet which one is going to have the greatest success.

"The reason for having retained the two-if I had known it was going to be Thor we should never have made a single Jupiter, or if I had known it was going to be Jupiter, I should never have made a single Thor.

"I didn't know," the Secretary continued. "We didn't know. Because of that we played both sides of the street because we felt this was so damned essential to be sure that we wouldn't be wrong."

The Secretary's explanation notwithstanding, most of the reporters at the conference, held in Harry Lee Hall, were of the opinion that there was considerable significance in the Secretary's remark about "some limited deployment of Jupiters.'

General Counsel Catches The Biggest Trout; With Marines At His Back, SecDef Is Firm

Department of Defense General Counsel Robert Dechert is the 1958 SECON "trout champion." He caught a 12-incher. Tops in the bass competition was Brig. Gen. Wallace M. Green, jr., USMC G-3, with a 16-inch, 2 pound catch.

Reporters attending Secretary McElroy's twilight news conference at Harry Lee Hall on Thursday, 19 June, noticed that there were six Marine officers—one of them Lt. Gen. Merrill B. Twining, Quantico Commander—and a corporal behind the Secretary. Notwithstanding this array, the Secretary remained firm in his conviction that the Marines should be reduced in the next fiscal year to 175,000.

Low next in the golf tournament—72—was scored by RAdm. W. D. Irvin, USN, Deputy Director for Communications-Electronics, JCS. Maj. Gen. William P. Fisher, USAF, Director of Legislative Liaison, had low gross—78. He also won the hole-in-one competition—3 feet from the pin on the 18th hole.

The lucky line winner in golf was RAdm. Roy L. Johnson, USN, Director, Long Range Objectives Group, whose drive landed one foot three inches from the line.

The luck of the draw placed RAdm, Edward M. Parker, USN, Chief, Armed Forces Special Weapons Project, to the right of President Eisenhower at the luncheon on 20 June, with Col. B. F. Taylor, USA, aide to Secretary Wilber M. Brucker, at the Chief Executive's left. The President expressed a desire not to sit at the head table, instead asked that Brig. Gen. Cary Randall, USMC, Assistant to Secretary McElroy, draw a seat number for him out of the bowl. The mystery seat plan is used to accent the fellowship aspect of the weekend sessions.

SecDef. McElroy Sees No Need For New Command

QUANTICO, VA. Secretary of Defense McElroy sees no need for creation of a new unified com-mand in the United States that would in-

clude elements of the Army's Strategic Forces (STRAC), the Marines and the Air Force Tactical Air Command.

The Secretary was asked about this at the opening of the Secretaries Conference. There had been speculation, prompted by House testimony on the Reorganization Bill, that such a new command might be devised.

"I don't think that will be required," said Secretary McElroy. He commented that the unified command concept meets the present need, adding that "any of our forces which are assigned for a given mission, whether they are Army, Ma-rines, Navy or Air Force, will be put together in the best combination." A reporter asked: "You don't foresee the necessity of TAC and STRAC being merged into a unified command?

The Secretary's answer: "No, I do not. No. I think what makes sense is that elements of each of those should become elements of unified commands where that is of advantage to us."

Marine Colonel Goes To Army War College

Col. Edward V. Finn, Executive Officer, Marine Air Group 31, MCAS Kanehoe Bay, T. H., has been succeeded by Lt. Col. Frank E. Hollar, MAG-13's G-4. Colonel Finn will attend the Army War College, Carlisle, Pa.

Here's The Story Of The Regrettable Rebul

question from the Baltimore Sun's Pulitzer Prize winner Mark S. Watson triggered the discussion by Secretary of Defense McElroy here concerning Senate Armed Services testimony of Admiral Arleigh Burke, Chief of Naval Opera-

The Secretary's remarks have had wide

Mr. Watson commented that the ARMY NAVY AIR FORCE JOURNAL (editorial in the 7 June issue) and the New York Times of 21 June (an article by Military Editor Hanson W. Baldwin) "made charges that there was pressure being exerted on the Joint Chiefs and I gather other witnesses from the Defense Department.

Mr. Watson questioned whether this pressure had reached the point of sug-gesting that their testimony be changed, be altered, under the arrangement where-by they can revise testimony after it's been given.

"Is it so much in conflict with the atti-tude which you expressed at the Press Club in your speech when you said that the service people wouldn't be expected to state their opinions under questioning. yet I wonder whether you are conscious of any change in your attitude or the attitude of your assistants?

Secy. McElroy: "I think the only answer I can give to that would be that I don't see how the Service Chiefs or anyone in the Department of Defense could fall to be conscious of the degree of interest of the President as expressed in his quite emphatic language about these three amendments.

guage about these three amendments.

"Now I have never heard of any suggestion that somebody go up and change testimony. That is brand new to me. I would say that would certainly have to be a decision by an individual, but I think it would be very difficult for a Chief or for me after having read what the President put out about these three proposed amendments to the House bill not to understand pretty clearly that the President, who is the Commanderin-Chief of the Armed Forces of the United States, in addition to being the boss of the Cabinet members, wants these changes.

"Now then when sympholy understands."

"Now, then, when somebody understands that, then it seems to me he makes his decisions about his own testimony in the light of that. That is all I can think of in response to your question."

Mr. Watson: "You do not know, sir, of the existence of a task force presenting pres-sure on the Joint Chiefs to alter their testi-

Secy. McEiroy: "I think the only thing that I can think of as being responsive to that question is we do have a group, which I talked about in detail to the House Armed Services Committee, which we formed early in the game to provide factual answers for any people that might be called to testify on any of the questions that looks as if they might come up and we do have such a group. It's a strictly information group and it will be around and will stay around as long as the Congressional committees want to ask questions or as long as any of our people that are about to go up may want to have some help in preparing their replies. We do not force it on anybody."

Mr. Prina (Washington Evening Star):
"That is to say, they don't have to go to
these people. Mr. Baldwin here says that this
week you told the Chiefs or warned the Chiefs
that not only would they have to support it
passively, as they have been, some of them,
but they would have to actively support these
changes, that there's been a change there
and you are becoming more insistent that
they support the President on the amendments and changes he wants."

Seey. McElroy: "No. I would say the only thing again that could be true is that the strength of the views of the President on these matters is known to the Chiefs, is known to the Secretaries, and their determination of their testimony, of course, will be made, must be made, and this has been true right along, individually in the light of their knowledge of what the Preident's views are."

Mrs. Oswald (American Aviation): "Mr. McElroy, does this testimony, is this testimony, prepared testimony, cleared in advance either by this committee or by the usual clearance people in the Pentagon, so that if the statements are not in accord with these facts then (inaudible)?"

Secy. McElroy: "I would be glad to answer that directly, but I think you could read some

of the testimony and realize that it not have been."

Mrs. Oswald: "That is true, I know far as the answers to questions is conceptut my question had to do with the pared statements."

Secy. McElroy: "Prepared statement the Chiefs?"

Mrs. Oswald: "Yes."

Secy. McEiroy: "Well, if it's been do certainly is not, is certainly without knowledge and I will say again if you read some of the testimony that's been I don't see how it could have happene

Mr. Norman (Newsweek): "Referr Mr. Norman (Newsweek): "Referring that question, to the testimony this week of Admiral Burke, you said that Chiefs of Staff should very well unders the President's position and yet as I nit Admiral Burke made it quite clear the thought that two of the three aments were properly included by the mittee."

Secy. McElroy: "Admiral Burke's and He's got a right to make this determine."

Seey. McElroy: "I think if I told miral Burke what to say he wouldn't it if he didn't believe it and I am for in that respect. I wish he had supp the President's position, but Admiral Bu a man and nobody is going to tell Adm Burke what to say if he doesn't believe

Mr. Raymond (New York Times); "I ferring to a point made here by Mr. Builthat you had come from the White House re-emphasized the President's attitude or reorganization plan in your talk to

Chiefs."

Secy. McElroy: "We had a talk about testimony. This was after I had finished my testimony and this was the kind of that I have done throughout which was to make certain that everybody unders the kinds of questions that I have had and kinds of answers that I have given so anybody that feels like following the line is not lacking in knowledge about the line is, and I wouldn't be at all surp but what in the course of that discussion had a discussion also about the strengther President's feeling about this may and the individuals who might testify, might be called to testify, would be well vised just to be conscious of that. I to tell them what to do and wouldn't presto."

Mr. Raymond: "Sir, what about Aim Burke's position now that he has testifed opposition to some of the recommendate made by the Commander-In-Chief and Secretary of Defense?"

Secy. McElroy: "Well, if you are all what his relationship to me is, it's be it's been in the past. I am disappointed him, regard it as regrettable. I think in officer. I am sorry he's mistaken in respect."

Mr. Raymond: "What about his future member of the team?"

Secy. McEirey: "I have no plans to ha position changed."

Mr. Raymond: "Is that possible?"

Secy. McElroy: "Not with me. I am I only one that is responsible for his fu

Mr. Prina: "You are not recon any changes?"

Secy. McElroy: "I am not recomme any changes."
"I think this is probably enough, don

SECRETARY CLARIFIES HIS REMARKS ON CNO

Secretary McEiroy on Sunday.

June, released the following statement after newspapers had from paged a story on his Saturday new conference in which his remain were widely described as being "rebuke" to Admiral Burke:

"It has been suggested at a pr "It has been suggested at a pre-conference yesterday that my re-sponse to questions relating to a miral Burke's testimony before by Senate Armed Services Committee constituted a rebuke to Admi Burke. This is incorrect.

"The Secretary can be disp pointed and he can regret parts of an officer's testimony without it be ing anything more than that."
